

*“In the current globalized world,
the internationalization of
education seeks to favor the flow
of ideas and people across
national and cultural borders
with the aim of providing
students with useful tools to face a
reality where different things are
done increasingly closer and
respect and understanding of the
other are erected for peaceful and
enriching coexistence .”*

*(The student exchange as a
promoter resource for human
development, Iberoamerican
University, 2010)*
