**Youth unemployment -
Europe, get ready for ne
challenges!**

**Exploring educational and vocational
training systems across Europe.**

Together against youth unemployment!

Mika, Germany

Naia, Spain

Gabor, Hungary

Miranda and Andrea,
Norway

Interview - Germany

Mika (16)

Why did you take part in the Erasmus+ project?

Because I wanted to improve my English skills, meet new people and going to another country.

How was the communication with people from other countries?

I think it was easy to communicate in English.

What did you personally think about the topic “youth unemployment”?

It wasn't relevant for me, because we don't have much youth unemployment in Germany and I think I won't have problems with this topic in the future.

What did you like most?

Going abroad.

Interview - Spain

Naia (15)

Why did you take part in the Erasmus+ project?

Because I wanted to visit another country and see different cultures.

How was the communication with people from other countries?

At first it was difficult, but later when we had more confidence it was easier.

What did you personally think about the topic “youth unemployment”?

I think it is boring and for me not interesting.

What did you like most?

Meeting new people.

Interview - Norway

Miranda (17) and Andrea (17)

Why did you take part in the Erasmus+ project?

It sounded exciting and funny. And we love to travel and meet new people.

How was the communication with people from other countries?

The communication was really good.

What did you personally think about the topic “youth unemployment”?

We thought it was interesting and it was really informative to hear about the problems of the other countries.

What did you like most?

Meeting all the other people and learning about their situation.

Interview - Hungary

Gabor (16)

Why did you take part in the Erasmus+ project?

Because I have never been in a project like this before, and I wanted to try it.

How was the communication with people from other countries?

Sometimes it was hard to make them speak in English :) But it was easier than I expected.

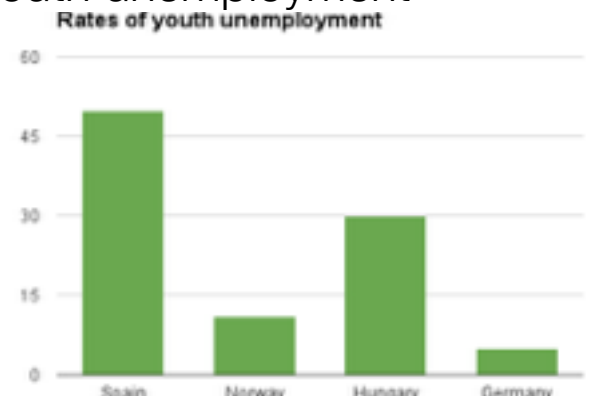

What did you personally think about the topic “youth unemployment”?

I think the topic is interesting, but I'm not really interested in it because what I saw was mostly statistics.

What did you like most?

Spending freetime in Hungary with the german students.

Youth unemployment

What to do against it?

Get help to found your own company!

- There are companies giving information and advices (e.g. Getxolan in Spain).
- You can ask for loans.

Finish school successfully!

- If you want to earn money, do a mini job after school.
- Look if you could get public loans from the state.

Gain more work experiences!

- You can ask for an internship.
- Look at www.internships.com. There you can find internships around the world.

Join courses for further education!

- You can study after work or online (in Germany are many offers, e.g. www.euro-fh.de).

Visit institutions which continue education!

- For example when you have troubles in your company.

Fight for equality for applicants in education!

- Maybe for same chances for an job where a study is not needed.

Look for an Erasmus+ programme!

- It will help over 4 million people, (mostly young) to study, train, gain work experience or volunteer
