Project partners:

2014-2016 Erasmus+/ eTwinning project

“NO BARRIERS FOR EUROPEANS“

Life has always been more challenging for people with disabilities and despite all the efforts it is still difficult for them to feel socially integrated. Since education is the route to a good society there are some steps to be taken to pave the way towards more equitable societies. By implementing this project 6 partner schools from Turkey (coordinator), Portugal, Spain, Poland, Italy and Lithuania have taken a step towards breaking some of the barriers faced by disabled students: we have pointed out that the disabled students can study, act and participate in the activities together with the abled ones according to their possibilities and potential; we have given more attention to disabled and SEN students in order to unlock their full potential and strengthen their self-confidence and belief in themselves; we have carried out activities which should encourage diversity and a multiplicity of viewpoints so that we can create more ways to appreciate the difficulties faced by students with disabilities; we have organized events and activities intended to raise the awareness among the non-disabled students at our schools so that they will never have negative feelings about people with disabilities.

Participating in this project partner schools' teachers have got a great experience to share their knowledge and skills and also gain some new ones how to educate and engage students with disabilities and SEN.

Teacher training in Dąbrowa Górnicza, Poland, 16/22-11-2014

Transnational meeting in Becilla de Valderaduey school, Spain 11/14-12-2014
