Technical evaluation of the activity program:

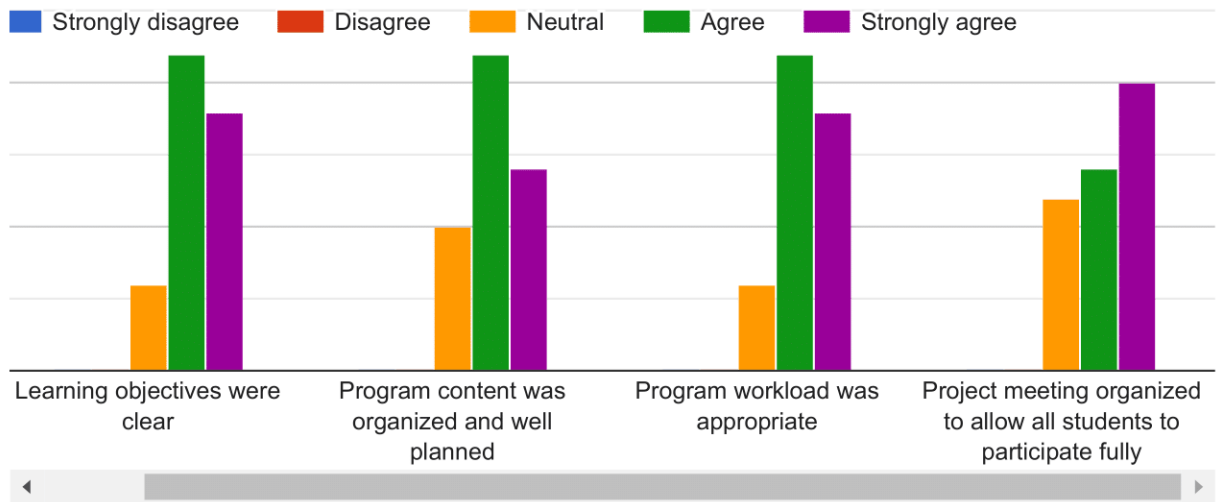

Your opinion about the following below? Please rate them:

Skill and responsiveness of the participants from the host institution:

Project meeting content:

What aspects of this project meeting were most useful or valuable?

23 responses

Project meeting should be organized more long term

To know the other cultures.

Being social

My English improved a lot, and we discovered new cultures

Cultural tours, city sightseings were useful. Also, I learnt a lot thanks to presantations about Portugal, Azors and Macedonia.

The communication with each other and the cultural monuments that we saw help us to know more about Macedonian past

learning other cultures

The new friends
New type of culture
customs.

The cultural activities and the visits were very good. The opera show was fantastic. The adequacy of the program to the project objectives and goals. The excellent group spirit. The organization and richness of the activities developed. The degree of achievement of the expected results. The common strategy of dissemination. The pedagogical value of the produced OER. Improvements in the process of monitoring and evaluation of mobility

The fact of socializing between cultures

The meetings between the groups from different countries

Maintaining some day-to-day obligations while on another country

Participants have different primitive languages but everybody could communicate during this program. In my opinion, if we can express ourselves in different cases and if we can communicate with people of different countries, we can feel more free and I noticed that under favour of this project. This was the most important point for me.

The knowledge of a new country and its culture, and also communication with colleagues from others countries

Useful

To recognize different cultures, to see different working methods.

Meet with new people from different cultures in a multicultural environment

The fact that we manage the time, money and the use of English to communicate.

I really liked meeting new people and learning their cultures. I was also really that i could tell other people about my culture. It really fun. Our connections with new people and learning new cultures are so valuable for me.

Please comment on the program in terms of meeting your expectations:

Perfect meeting

It was just like how i expected.

.

My expectations about the program were fulfilled and satisfied

Program was so affluent. My expectation was seeing and learning the heritage country of Alexander the Great. Ohrid, Skopje, Monastiri, Resen and of course Kavadarci were so beautiful.

It exceeded my expectations

better than i expected

Is very good

It exceeded my best expectations.

The program far exceeded expectations due the excellent time management, rich visits, excellent development of working meetings, excellent interpersonal relationships between all partners and a fantastic welcome.

It pass my expectations

The program met my expectations and went beyond them. It was absolutely amazing

It didn't fulfill my expectations that were very low, which is a good thing.

The communication was good between participants and everyone was sympatetic. We learned traditions and heritages of different countries and I think this program gave us a good chance to develop ourselves culturally.

This program is above my expectation.
I never thought there was so much to see.
It was a amazing experience.

Yes

Such programs are very important to prevent prejudices.

That was a great experience

The programme fulfilled my expectations from good contact between the various countries to the proper planning of the activities proposed to us.

It was really good. I was expecting something more academic and strict but it luckily it was really fun and educational at the same time. I've met with different people around the world and i saw a lot of cultural things. It was a really good experience.

How would you improve the program for the next project meeting(s)?

23 responses

More participants more teachers more countries more projects

We should spend more time on the natural trips to know the nature better.

Maybe we can improve the time schedule for create a much better cultural program

I would add the activities that students contact each others.

Improving the communications between schools (like the shendule should be delivered earlier)

the host teachers

I don't think it would change anything

I'll Have to think a lot about it...

Improve pre-mobility communication regarding the project monitoring meeting.

I think it would be more fun if we stayed in home of the Macedónia students

People from other countries should stay in other people's houses on the host country, not in an hotel

Less museums, more interaction between the teams, even though Macedonia already had more of that

I would reorganize the instruction of presentation for time limitation. If all participants have time limit for their presentations, we can be more punctual and we can have a well organized project plan.

Maybe in time management, we could have been more time in the places we visited programs were very tiring

I suggest that visual and practical studies should be given more space.

Choosing also different subjects would be a good improvement

I would only improve the issue of time when we arrived at the hotel at night, it became a bit complicated for us to arrange for the next day.

I think that the schedule can be improved. Some of the activites finished late so we had go back to the hotel late and we had to wake up early the next morning. It was really exhausting. And i think that there must be some orientation activities to help students from different countries communicate easily. It was really hard to socialize with new people.

What do you think that you have gained at this project visit? (State at least 3 things)

23 responses

Well hospitality well organized well planned

A lot of friends from other countrys and cultures.

Culture,fun,New friends

English vocabulary and grammar

New friends and new cultures

New country that I've never been before

- I saw very well Eastern European, Slavic culture.

- I saw cosmopolitan city and effect of Ottomans, Byzantine and Roman Empire all together.

- In Monastiri and Ohrid, I have learnt something jeomorphologically and pedologically during the tours where we made in museums and Bone Bay.

Communications skills, how to be more independent, how to exchange money...

-culture

More culture

Learning about other country

More friends

- contact with a different European culture with its own specificities.

- sympathy of Macedonians people;

- the artistic grandiosity of this country

Macedonian culture and heritage.

The excellent collaboration of all participants.

The discovery of a country that looks very different from ours.

New pedagogical dynamics based on knowledge and exploration of heritage.

Improvement of collaborative work strategies among teachers.

Improvement of personal and institutional skills in outdoor education and digital education. More personal and school institution training in the management of international projects.

Knowledge of some parts of the macedonian culture; more confidence speaking a foreign language and hopefully new friends or the knowledge of other people's existence in the world

We gained new informations, new friendships and new experiences.

I gained country knowledge (Macedonia), easier communication and more willingness to participate in erasmus programs

Necessary,original,beautiful

1- I know different cultures better.

2- I discovered our similarities with different cultures.

3- I saw the importance of cooperation and collaboration and generating common values

I've learned about different cultures
I've improved my English
I've made new friends around the world

In a way I gained more independence, I met a new culture which made me reflect on some cultural differences and I was able to perfect my English.

I have learned different cultures.
I have met with new people.
I had a chance to travel with my best friends.
I had a chance to express myself and tell about my culture in front of different people.

Everything were allright

.

Macedonian's partner have receive

I loved this mobility. congratulations to everyone who has been in your organization.
I loved the Macedonian people who were very nice. This mobility surpassed all expectations. THANKS FOR EVERYTHING.

It was a very useful work for everyone.
