

# The strength of the team through the animation!

An Orthodox opinion about team and  
its power

**Name : Maria Panou**

**School: 2nd Junior High School of Kalymnos**

**City/ Country : Kalymnos, Dodecanese, Greece**

**Role : To understand the meaning of One  
God in Three Persons by the relationships  
of society and teamwork**

A series of horizontal stripes in various colors (yellow, green, blue, purple, orange, red, white, green) spanning the width of the slide at the bottom.

# Holy Trinity and team power

The orthodox theology showed us the truth about the existence of a God who is both loving communion of saints Three Persons, different, but inextricably united in one God! By this way it teaches us that people like us made us happy through a loving communion of persons. The existence of the League of Persons of the Trinity allows us to be unique and invaluable through the power that gives us communication between us, through the power of the group.

# Group videos with a message

We gathered a group video animation which gives the message that we above described, and we present the thoughts of our students on the common idea. Enjoy the video and our thoughts and if you pleased could you kind enough to join your own because we consider them also invaluable and unique! You can also play our game!

# Where did I take the idea?

I took the idea learning about blubbre.tv  
web2.0 tool.

# What resources or tools did we use?

1. Youtube videos, teamwork animated group
2. Blubbre.tv tool
3. Google.docs, presentation
4. images by web
5. Using material of our e-journals ([www.2gympsilkalymn.wordpress.com](http://www.2gympsilkalymn.wordpress.com), [www.oureuropeanschooljournal](http://www.oureuropeanschooljournal)),
6. etwinning twinspace of our project : "Diving in the Oceans of Knowledge!"

What impact had the project had on my students : Share their thoughts:

Zachariou Mikes, A1: The common theme in these videos is teamwork and cooperation. Ants argue and save one another with the help of obedience themselves in a leader who knows how to coordinate them without the risk of losing. The penguins are not scared, they faced the enemy. And when you do not know to cooperate like those birds, get everything in fooling others who are different from you ... and learn how it was feeling and when he mocks you!

Anonymous: All the videos all these creatures of nature that we have seen are favourite among them, though they fight among them, they find a communication at the end. Well, that God wants us do to the people, be united and help each other with no hard feelings.

Emmanuel Kamaraki, A1: When someone has hurt us and need our help to not hold any malice and help as we can. But when you do something bad to someone else, then most of the time turns bad on you.

# Has the project enhanced the learning progress?

My students learnt about team work and communication inside the world of God with fun, imagination, playing. We had three hours full of glad, fascinated learning and the chance to dream the new world of God.

# What message would you like to convey to your colleagues?

Don't be affraid imaging and dreaming fascinated ways of learning. It's a happyness have nowadays the opportunity to share knowledges such a way!

Thank you a lot you share with me this great for me experience!
