

Hello

In Bielsko - Biala there are very beautiful old monuments.

The history of these buildings is very long and interesting.

The oldest monuments are 700 years old.

The oldest one is the Sułkowskis' castle. Its the oldest and biggest building in the centre of the city.

It is the most popular monument.

We have a beautiful town hall too. It was built in 19th century. It was designed by Emanuel Rost.

In our city we have a very beautiful St. Nicholas' cathedral, which is located in St. Nicholas' square.

In the old market we have renaissance and Art Nouveau townhouses. They have been renovated lately and look great with new roofs and colours.

There is a breathtaking train station in Bielsko, which was opened in the 19th century by Franz Joseph, the emperor of Austria.
