

The house of culture

I'd like to tell you about a famous place of our town – the house of culture.

A long time ago it was a Polish catholic church. It was built in the 19th century.

Nowadays it is the district house of culture. It is very big and comfortable. Church services are not held in this building. Different concerts, meetings, festivals, celebrations, flash mobs are held near or inside the house of culture. You can see very beautiful moldings on the walls inside this building.
