

Workshop Together We Can

You'll be doing a group work. In 2 minutes you must choose the leader and the spokesperson of the group.

You will have to build a monument or a symbol from Porto, using only the material placed on the table. Of the images placed at your disposal you will have to choose only one.

Think about the best way to execute this three-dimensional construction.

Maximum time - 30 minutes.

Warning: if you eat the sweets there is no building material!

Good work and lots of fun!!
