In our Group of Schools the spirit of solidarity is being promoted for several years and for this reason the school has won an award - **Super Solidary School**.

- ▶ Next we will show you some examples of activities of solidarity run by our students at school.

Activities of solidarity run by our students at school

We held an afternoon of solidarity sewing, where dresses and shorts were made for children from poor countries. In all the dresses and shorts' pockets, we put a pair of new pants.

We collect plastic lids that are delivered to a five-year-old, motor disabled child, with a rare disease. These lids will allow the purchase of a special chair. A ton of lids yields 500 euros, a 5 l bottle filled with caps equals € 0.40.
