

POEMS

I

Equality
We need it
We want it
But will we have it one day?

Some are living
Like it is their last day alive
While some are dying
Struggling to survive

Some are rich
And have filled their fridge
While some can't even flip a switch
Living under the bridge

Some have good cars
That are very fast
Some have old ones with scars
And that trip could be the last

Let's end this discrimination
We'll find a plan
United as one nation
Together we can!

II

Equality is not a concept
There's no need for prejudice
This world is full of inequality
Let's spread justice and fairness,
Fairness is not sameness
Fair is fulfill everyone's needs,
In order to be successful
Let's start a change.
Unless we start now
It will not come true.
Let's start today....
