

FUTURE LIFE ERASMUS+

HI, IN THIS PRESENTATION WE WILL TALK ABOUT THE FUTURE
LIFE QUESTION THAT WE PREPARED BY OURSELF ENJOY 😊

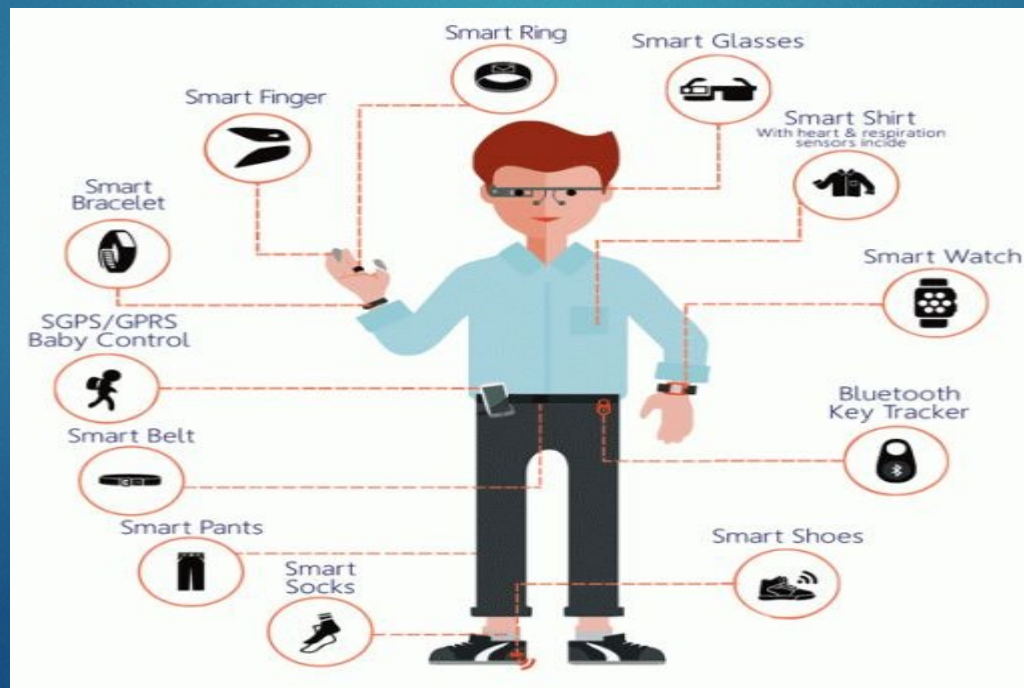

1)THERE WILL BE FLOATING SKATEBOARDS,CARS AND HOUSES

- ▶ This article point is 2,00
- ▶ We thought that there can be flying skateboards, cars and houses. But the students who vote our questions didn't like our question. But we still think that it is possible. Maybe they don't know what does floating means. For this reason students gave us low points.

2) WE WILL USE WEARABLE TECHNOLOGIES

- This article point is 3,22
- We thought that we can use wearable technologies. Students strongly agree with us. We already have smart watches but we don't mean it. For example, smart finger. You can see this in most of the cartoons. So some people want these things a lot. We hope their dreams come true.

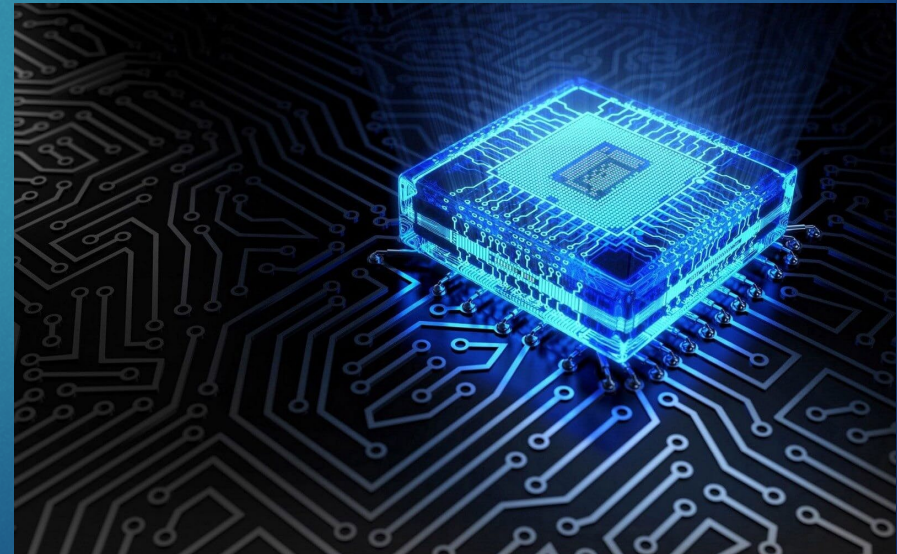

3) WE WILL LIVE IN MARS

- ▶ This article point is 3,11
- ▶ Pollution is a big problem in the World in many countries. It effects our health badly. We thought that people will be able to live in the Mars in the future. Astronauts also think that we can live in the Mars near future. And scientists say that maybe we will not have any grand children because of pollution. So perhaps we need to somewhere to live like the planet Mars.

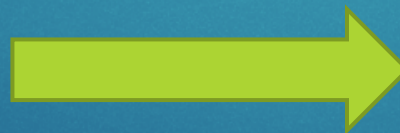

4) PEOPLE WILL NOT HAVE BRAINS, THEY WILL HAVE CHIP INSIDE

- ▶ This article point is 3,00
- ▶ We thought that people might use chip inside of the brain. So people do not need to work to memorize events, facts anymore. Chip works as a hard driver inside the brain and people will learn and save things easily.

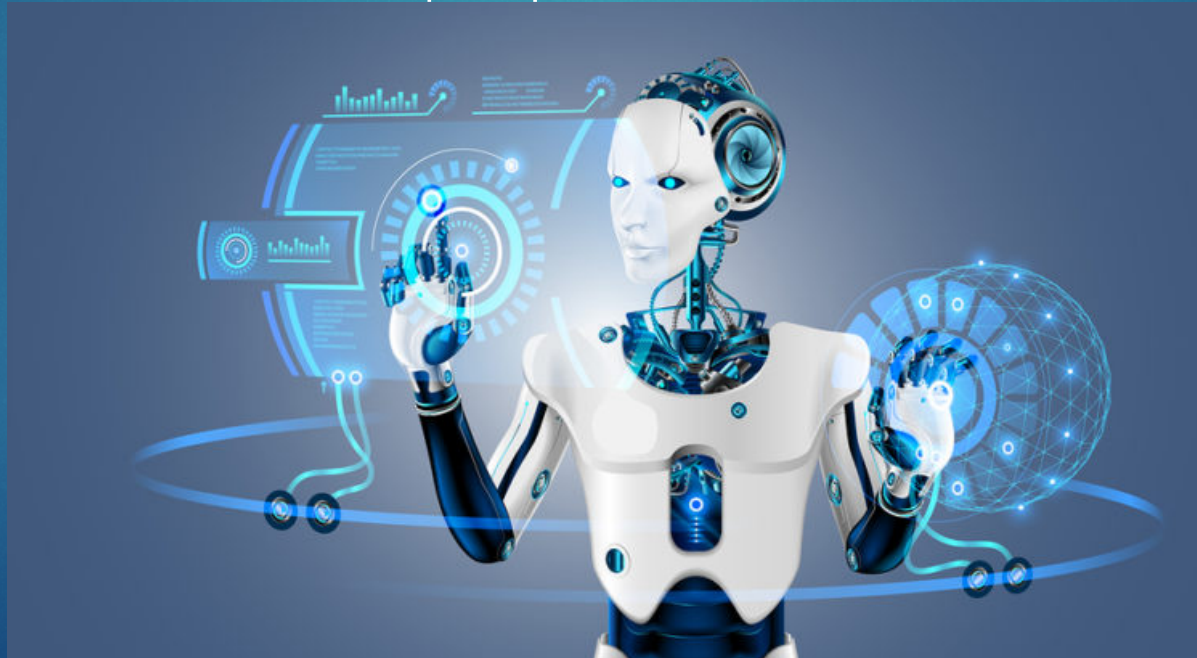

5) THERE WILL BE NO SCHOOL

- ▶ This article point is 2,00
- ▶ We thought that there will be no schools in the future because people can learn everything what they need to know with a chip. But we think some students understood it wrong. They thought that there will not be education in buildings. We can reach the knowledge from everywhere.

6) ALL JOBS WILL BE DONE BY ROBOTS

- ▶ This article point is 3,33
- ▶ We thought that all jobs will be done by robots in the future. Most of students agree with us. It is the same opinion with robots will take our place in the future. Some people are worried about this.

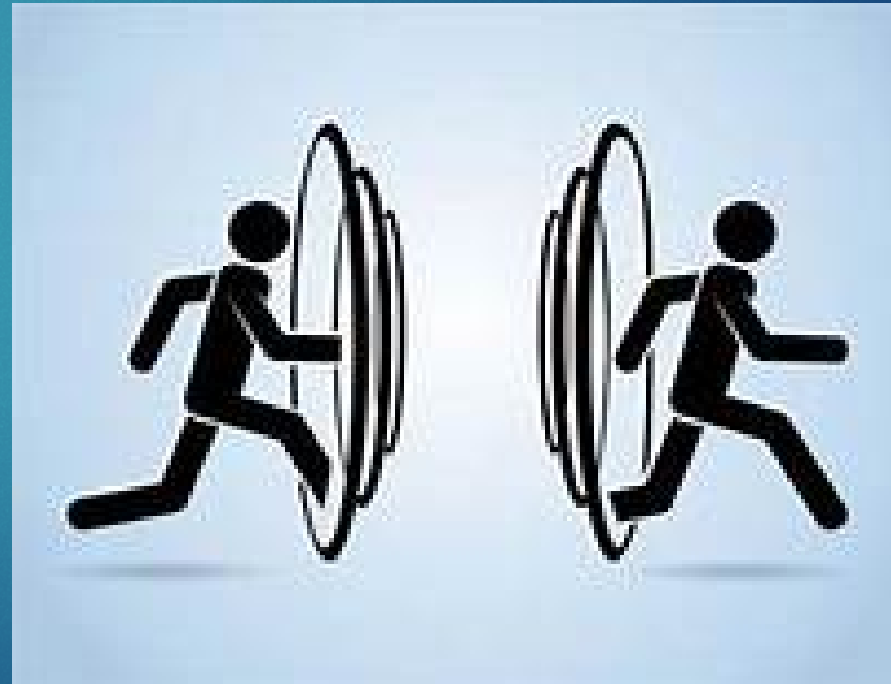

7) THERE WILL BE SMART HOUSES

- ▶ This article point is 3,56
- ▶ We thought that there can be smart houses. We already have some of them at the present. But we only have an app to look at if the sink is open. Maybe we can have something like these:
- ▶ When we think, the lights can switch on.
- ▶ There can be a voiced helper devices.

8) WE WILL BE ABLE TO TELEPORT

- ▶ This article point is 3,22
- ▶ We thought that we will be able to teleport in the future. The scientists are already working on it, but it is not enough. Maybe like these:
- ▶ Country – Country
- ▶ Earth – Moon
- ▶ Earth – Mars
- ▶ Mars – Moon

9) WE WILL USE MICROLIGHTS

- ▶ This article point is 2,12
- ▶ We thought that we will use microlights in the future. But some people don't agree with us. Maybe they don't know what is a microlight.

10) WE WILL STOP GLOBAL WARMING WITH TECHNOLOGY

- ▶ This article point is 2,22
- ▶ We thought that we will be able to stop global warming in the future. Some people want to stop global warming so they try to do something. We can start to stop global warming like these:
- ▶ Use roll-on instead of deodorants/parfumes.

☺THANKS FOR LISTENING!☺
