AUDITION FOR A MOVIE

This activity is for stimulating self-confidence.

- The students are given a text that they need to act out and are told that they will play in a significant movie among great actors.
- All the candidate-students perform the same scene.
- Then students individually present their CV and give arguments why the directors should choose them.
- After finishing with all the participants a discussion is held about who has received the role and why he or she is selected.
- A discussion about the feelings the students had during the audition is also initiated.
