One Working Day in my Company AUTOMOBILE REPAIR WORKSHOP

Coordinator:

Bulgaria – Dimitar Dobrev, Stefka Sultanova, Pepa Golemanova

Students:

Manager: Ivan Krastev

Secretary: Karina Anton

Builder 1: Tiago Santos

Builder 2: Andrei Rosu

Mechanic 1: Angel Kitanovski

Mechanic 2: Vlad Sarbu

Customer 1: Daiana Nemzet,

Customer 2: Monika Davidovska

Mechanic 1 What are you up to, my friend?

Manager For a long time I want to realize one of my dreams - to create the company of my life – an automobile repair workshop!

Mechanic 1 Why didn't you tell me this earlier? I can help you. You know I'm a good mechanic.

Manager Do you want to establish our company, our own automobile repair workshop?

Mechanic 1 Of course. Just say where to start from!

Manager First, we have to invent the company name.

Mechanic 1 Isn't it better first to choose the place and build the automobile repair workshop?

Manager You're right. Let's plan the investment and begin the construction.

They sit, write, comment, talk with the builders, and advise them. The Manager and the Mechanic 1 go out.

- Builder 1** Let's sit and rest. I was dead beat with working.
Builder 2 Those people are very nervous! They want us to work quickly, but also high quality.
Builder 1 And they constantly change their plans - this change, that change.
Builder 2 But I think the automobile repair workshop will be very good.
Builder 1 The manager and the mechanic seem to me good entrepreneurs!

A new mechanic enters – Mechanic 2, with him the Secretary.

- Mechanic 2** Well done, guys! I see you've almost finished the construction!
Builder 1 Who are you?
Mechanic 2 I am a senior mechanic and I'll work here! If your cars get damaged - welcome, I'm the best.
Builder 2 Wait, your company isn't working yet ... but who's the lady?
Secretary I am the office manager of the automobile repair workshop. Where will be my office?
Builder 1 Here - the design is modern, and you have great office equipment.
Secretary Wow, it's really nice!
Builder 1 Masters, come to show you the channel and the instruments.
Mechanic 2 I have no patience, my fingers itch to work!
Builder 2 This is your workplace, here is the equipment you will work with.
Secretary Unbelievable! I'll do my best for the sake of the best automobile repair workshop!
Builder 1 Here are the tools and computer devices...
Mechanic 2 So we're ready to open the company!
Builder 2 Yes. That's from us! You are from now on!

The builders and Mechanic 2 go out. Music. The Manager and Mechanic 1 enter together with Mechanic 2 and the Secretary. They open the automobile repair workshop, clap hands, work. All go out, only the Manager and the Secretary stay.

- Manager** Before we start working with clients, we need to clarify some things.
Secretary I think we invented a good name of our company - it attracts attention: Sliven Auto Group
Manager That's right. We won't change the logo - it's perfect for advertising our activities.
Secretary Have you thought well about our slogan, have you hesitated between different proposals?

Manager I suggest that our motto is : We put the “quick” in the quick fix.
Secretary Have a look at the brochure. Here are the main activities, the contacts.....
Manager Very nice. I like it. What about the site?
Secretary Everything is OK. Our site is ready and we have already uploaded the most important information about the company.
Manager Well done! I'm going to a few business meetings, hope to have a successful start-up.

The Manager goes out. The Secretary sits in her office. The first customers appear – Customer1 and Customer 2. She talks to them. The Mechanic 1 and Mechanic 2 enter.

Customer 1 While we were driving, suddenly the car stopped.
Customer 2 And then we couldn't ignite the engine...
Customer 1 It was on the main street and we made a traffic jam.
Customer 2 And people around started to bip the horn. They were angry and nervous....
Customer 1 Then some drivers pushed the car out of the way...
Customer 2 ... and we called the roadside assistance...
Customer 1 ... and they pulled us here...
Customer 2 ... but the car doesn't work, and we are in a hurry...
Mechanic 1 ...dear customer, I have a request - shut up at last...
Mechanic 2 ...because we've already understood what happened....
Mechanic 1 ... and we need to look at the car...
Mechanic 2 ... then it will be clear what repair is needed.
Customer 1 OK. Are you going to be ready after 30 minutes?
Mechanic 1 No, my dear. It's impossible.
Customer 2 But we are really in a hurry, we're going to a party.
Mechanic 2 It is possible not to be ready even for 30 days. It depends on the damage.
Customer 1 Then what shall we do?
Mechanic 1 Leave a phone for contacts and an hour later we will tell you the damage and the price.
Customer 2 Then what?
Mechanic 2 Then, if the offer suits you, you will be our customers.
Customer 1 And the party?
Mechanic 1 Shall I call you a taxi?
Customer 2 Oh, yes. Perfect!
Mechanic 2 Hello...

The customers go out. The mechanics work. The Manager and the Secretary enter. The Manager helps. The Secretary stays around. Then the customers and the builders enter.

Manager Done guys! This damage was extremely big, but with a joint effort the car will be on the move again!
Mechanic 1 The car engine is like new. Let me ignite and test... but something is wrong...
Mechanic 2 Let me try. Maybe it's accidentally...

Secretary Manager The customers come. What should we do? We shouldn't make fools.
We will improvise! If the car goes, we'll have a successful automobile repair workshop... if not ...

Customer 1 Oh, my dear car, have you fixed it?

Customer 2 Well, of course, it's ready; it seems you have tested it.

Mechanic 1 Yeah, it's moving fine, just a little detail...

Mechanic 2 We have to move it slightly and it will fly like a rocket.

Secretary Manager We need some help, I'll call the builders...

Builder 1 Girls, just help to push it gently.

Builder 2 Here we are. We have built this automobile repair workshop and you can rely on us.

All Let's all together push the car!

Secretary One ... two ... three ... It doesn't work!

All Wait, wait! We forgot something important! In our automobile repair workshop there is a small magic that connects the customers and the company team.

Secretary What?

All The slogan!

Secretary The slogan?

All We just have to say it together...

Secretary We put the "quick" in the quick fix.

They say the magic slogan and the car goes on. All are happy!
