

Hi people!

We are students of the Alessandro da Imola high school in Imola. We are happy to know you and we want to tell you something about us.

ANDREA

Hi, I'm Andrea; I'm 15 years old and live in Imola. At school I'm studying english, german and spanish. I like this school as I can learn culture and habits of other countries, travel and know new friends around Europe. In my free time I meet my friends, listen to music or ride my bike.

Fishing is one of my favourite activities, my dad taught me, and I go fishing with him and my brother for carps, trouts or catfishes.

I've practised judo since 5 years, I like it as you can learn how to defend yourself or do it for fun and I've known a lot of new friends. I have the orange-green belt, that is the 5th level.

LEONARDO

Hi I'm Leonardo, I'm an Italian guy from Bologna, I'm 14 and I attend Alessandro da Imola.

In my freetime I like watching Tv or stupid videos on YouTube , I also love spending hours listening to music, I mainly like EMINEM.

I play tennis and sometimes I have a football match with some friends, I also like snowboarding, I have been practising it since I was 7.

FILIPPO

Hi my name is Filippo and I'm 15 years old.

My greatest passions are skateboarding, surfing, skiing and taking pictures.

I've got two brothers and one will be born in summer.

I'm also a DJ, I'm not very good at all but I have a lot of fun when I mix sounds in my room.

I've got a dog he's not so smart but he's cute.

I study at Alessandro da Imola high school, there I study in particular languages like English, Spanish, and German.

I'm in the 2nd grade, we are 21, 18 girls and 3 boys (yes, I said 3... only 3 boys). Being in a class with 18 girls has pros and cons.

The pros.... oh come on you know what the pros are.

And the cons are that the majority of time they talk about boys and girls stuff and sometimes they are lunatic but that's normal.
