

MY PERSONAL PRESENTATION - E4U

Hi, my name is Matěj Kůs, I'm 16 years old and I live in Dobříš, Czech Republic. I love taking part in various projects, talking to new people, using languages and travelling, that's why I have decided to participate in E4U.

I consider myself to be an active friendly person, with a lot of interests. I like to be different, to express myself in many ways – that's why I do art. It's very important to me.

First of all, I love music – I play the piano and the guitar and I've recently taken up singing as well. Secondly, I love photography, film making and painting (taking pictures while walking outside or cycling is my daily routine). I also like to write poems, to think about various stuff, write it down and share my thoughts with others. That is also related to another hobby of mine – psychology.

I also enjoy ballroom dances (waltz, jive, cha cha...) and attending balls with my friends. I like using languages (and travelling), I study English and French and I know some basics of Italian. I also teach kids in order to earn some money and I quite enjoy it.

My friends are very important to me and I love spending time with them in any way. I enjoy going to cinema or attending some events.

I live in the city centre of Dobříš, which is a very nice town and I am glad that I don't have to take the bus to get to school. My family is quite small, it's just me, my elder sister, my mum and our little dog. We have a small new house with a nice garden and I love it there.
