Hi, my name is Petr Valenta and I live in small village, which is named Obořiště, Czech Republic. Obořiště is 40 km southerly from Prague. I'm 16 (nearly 17) years old and I live in a family house.

I'm currently studying at Grammar School of Karel Čapek, Dobříš, attending 6th year. My family consists of my parents (Mom and Dad), me and my sister. We also have a dog called Essien.

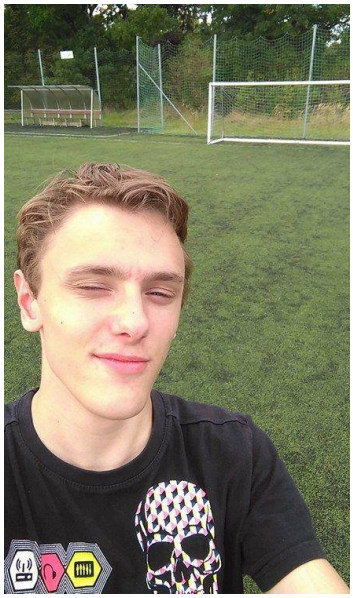
Now, let‘s talk about things that make me satisfied, my hobbies. My probably biggest hobby is floorball. I‘ve played it for 8 years and won couple of trophies from many tournaments including National Junior Championship in 2012, but 3 months after this tournament I broke my leg, so from this point I‘m not playing competitively anymore.

My second biggest hobby is playing football. I‘m not as good in it as I probably am in floorball, but I really enjoy playing football with my friends.

And after football, I also pretty much enjoy riding a bycicle, but I hate cycling into steep hills, that makes me a bit annoyed, but after the ride, I can‘t feel my legs properly, so i think it‘s a good training of both stamina and legs.

Last but not least, I enjoy playing computer games with my schoolmates. We are playing League of Legends, Rocket League, Garry‘s Mod, etc. And when it is raining outside, I always end up in front of my computer playing some football games like FIFA etc.

Here are some photos of mine:



I hope you enjoyed reading my personal presentation, hopefully I‘ll be selected and go through.
Peace,
Petr
