## A year for Bukavu – Un anno per Bukavu

Bukavu is a city in Congo (Africa), where living conditions and school education aren't so easy and acceptable.

# JOURNEYS

Our school offers a lot of possibilities to travel abroad.

You can do:

- A whole year in a foreign Country, attending school there
- A language stage in the country we study the language (this is either in the third or fourth year)
- A bilateral exchange; for one week we go to another country of Europe, we are hosted by a partner school and in return we host the students of that school.
