

I AM ALESSIA

Hallo ,my name is Alessia La Monica. I'm 15 years old and I'm a student.

I live in a beautiful apartment with my parents on the outskirts of Imola, a homely and cozy town in Emilia-Romagna. My family is composed of my dad, a computer engineer, my brother , a student and my

mum. She is the head master of her private school, she is American and she knows 8 languages, as well. I esteem her to much.

I think I am just bit plump. I am dark-haired, fair skinned and I have got changeable eyes. I am very ambitious, a daydreamer, positive and adventurous.

I attend a grammar school specialized in languages in Imola. I study German, English ,French and Latin.

I dance and I love it, because it means a lot to me as I've been practicing it for a long time. I don't have lots of free time, first at all because I have to study but my favorite hobby is ondobtely going shopping. I love visiting shop, trying cloth on and buying. I also love traveling. I love to go in America to my relatives.

I also enjoy go out whit my friends. In this case Angela and Giulia. They go in my same school. I knew them since 2 years, it's not to much, but I care of them.

I start by saying that unfortunately, I'm not very sure what I can do in my future. Meanwhile I'm in high school and then we 'll see, I hope that I will study properly and I am sure that I can reach some good goals. I hope I can find some opportunities in the business world.

Certainly, I'm going to attend to university and then I'm going to go abroad. Regarding my private life , I hope something good will happen because today life is not easy.

this is my little presentation, with some photos and my description.

WHO I AM

Hello. My name's Angela Graziano. I'm 15 years old and I was born the 21th May 1999 in Castel San Pietro.

I live in the suburb of Imola, a city near Bologna. I'm a very tall girl for my age. I'm 1,73 meters and I'm also thin.

I have a long, blond hair and a strange eyes. They are green, gray, brown and blue, sometimes together and other times they depend from the weather. I have a normal lips and my mouth is big.

I have a bent teeth and I don't like very much my smile but I always smile because I hate be sad. In fact I'm optimist, cheerful, funny, friendly and crazy but I'm also lazy, moody and stubborn.

My sport and my life is the dance. I practice modern and hip hop dance. I love dancing because when I dance I feel very well, all my little problems like school, friends, family disappear, there are only the music and when I do it I'm free. I hope that I won't stop to dance because I think that I can't live without it. It's my wonderful word.

I also love playing the guitar and singing. Sometimes I use to do both and it's very difficult but I really like it . I want to begin better than now, I have also more to learn. I love also taking photos. I love the photos because they stay the same also when the things change

.I have a professional camera call Canon and with it I take lots of photos. I like travelling,doing shopping with my mother and going out with my friends. So this is a part of my life.

Hello!

My name is Francesca, I'm 16 and I live in a osteria grande, a village near Bologna. I live in the countryside, but if I could decide I would live in town because for me it is very uncomfortable moving myself. I'm attending the second class in the language school "Alessandro da Imola" and I'm studying English, French and German.

I'm not really tall, but in return I'm enough thin and I have long, smooth black hair and brown eyes, I also have two dreadlocks.

During the summer I usually do braids, for example this summer my braids were black and blue.

For describe me I would use the word tomboy: I love baggy pants, extra large hoodies and skate shoes. Sometimes I use torn pantyhose and legwarmers, always accompanied with a large hoodie or t-shirt.

I'm a friendly person, I like to do new friendships but at the same time I'm reserved and I don't like to tell my problems to others. I can't stand people who complain all day, or who give too much weight to the thought of others.

I love underground electronic music, for example Goa, Tekno, Frenchcore and the different subgenres, but my first love is for the Rap and Hip-Hop culture, Italian and American. I like also different bands like Rammstein, System of a down, Slipknot, Lo Stato Sociale and others.

I'm passionate about cinema and if I have time I watch a lot of film and tv series, but I also like to read books

WHO IS GIULIA?

Hi! My name is Giulia, I'm from Italy, I live in Imola, near Bologna; I was born there, the 9 of January 1999, now I'm 16 years old.

I'm quite short, like everybody in my family, and I'm skinny thanks to all the years of sport I did since I was a child.

I've chestnut brown hair and I'm brown-eyed, nothing so special, I've got long eyelashes. My

cheeks are full of freckles, in particular in summer because of the sun.

I like hear-piercing , in fact I've got five and I'm going to do others.

I've already a nose-piercing.

I'm a sunny person, I love make people laugh and I'm unselfish, if someone needs me I have no problem to help him/her but at the same time I treat good who treats good me; I'm very friendly and extroverted, I like knowing new people and for me it's easy to socialize with everybody. I'm stubborn and I want always to be in right , even when I'm not.

I like spending time with my friends, but during my freetime, when I haven't to study, I like reading or watching films too.

Adventure or funny films are my favorites, but about books, I read love stories especially.

I'm going to play guitar with a friend, I love listening and playing music, years ago I played saxophone but I didn't like it. My favorite type of music is rap, Italian or American, I usually listen Chris Brown, Nicki Minaj, Lil Wayne, T.I., T-Pain, or Jason Derulo; I listen pop music too, for example Katy Perry or Rihanna. I go to the gym 3 or 4 times a week, it's not very funny but I've enough about other sports.

Now I'm attending a language school, I chose this school because I always wanted to travel all over the world and I think that if you know languages you can go everywhere with no problems; I study English, Franch and German.

If I think about my future, I see myself far away from here, in a sunny city, in a big house with the pool (this is my dream).

I'd like to become a psychologist one day, but I haven't chosen my future job yet.

XOXO Giulia, if you want, write me here ↓
