

Hello, my name is Lenka Hodačová. I live in Dobříš and in this city I study too. I have decided to join this project, because I would like to meet new people and try new things.

I live with my mum, dad and sister. My mum's name is Eva, she is 46 years old and she is pharmacist. My dad's name is Miroslav, he is 50 years old and he is soldier in office. My sister is Jitka. She is 11 years old. She is younger than me, so she studies in First school, which is next to our Grammar school. We live in flat probably 2 km from our schools.

1. It's me

I have lot of interest. Once a week I go to guitar lesson. I have just played for 6 years. I don't play very good, but I enjoy it.

My next interest is very important for me – it's scout. Although I am scout for a short time, but I don't know, what I would do without it.

2 Party with my best friends

I love spending free time with friends, because they are awesome. We are in library, we go to the cinema, but most often we are outside and we are talking together.

Next favourite activity is dancing. Last year we attended a dance school and I fall for dance (jive, cha-cha, waltz and valse – my favourite dances).

When I have free time, I read books. I don't read often (because I don't have a lot of free time), but I like it. My favourite books are The night circus, Sister and If I stay. But I sometimes read a fantasy or sci-fi books.

When outside is beautiful weather I go to run or I go by bicycle. Cycling is my favourite sport. I like volleyball and walking in the nature too. I would like start to shooting, but near our city there are no shooting range.

I love animals. My favourite animals are dog and puma, but because we live in flat, we have only hamster Kulička and fish.

It's all about me. If you would like to contact me, you will write me on my facebook profil -

I am looking forward you 😊
