

Hi! My name is **Beatrice** Colina. I live in Ozzano del'Emilia, a little town near Bologna, in Italy. I attend Alessandro da Imola high school, and every morning I take the bus to go to school. It takes me 40 minutes therefore I listen to music or I have plenty of time to chat with my friends; we are 7 friends who come from Ozzano. In my free time, I like reading books and magazines. Unfortunately, I haven't much time for reading, generally during the evening. I am a very busy person. Other things that I love to do as for example writing, drawing and playing tennis. Always when I have time, I write short stories inspired by books I have read, like fantasy or detective stories. Now I am writing about my holiday in Spain. I also enjoy drawing. When I was younger, my drawings were very bad, but at middle school I improved a lot.

Last but not least I adore playing tennis. I really love it! I started playing tennis 4 years ago with three friends, but now I am the only one who is still playing. I train 3 times a week: 4 hours of game and 1 hour of athletic. I enjoy spending my time and a little part of the evening there. In fact last summer I also helped the instructors with the summer camp for 2 months. There are also things that I hate or I don't want to do. Regarding sport, I don't like playing on a team, because if the team loses, the blame will be for the people who play the worst..... I definitely hate football. I don't see any reason to kick a ball ... But of course I can imagine footballers saying: "How can you enjoy to play the ball over the net with a racket?" It is a matter of liking. Another thing that I can't stand is "mess". I am a very tidy person. Things have their own place, so when you look for them, you know where they are.

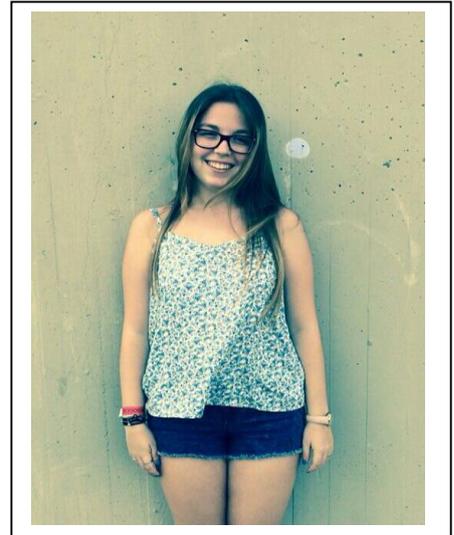

I am also greedy for food, especially Italian. I would eat chocolate forever... but there is a contradiction, as I hate cakes. Cakes that are too sweets are disgusting.

I am sociable and funny but also quiet...another contradiction! I am quiet at school but with friends I can be as worse as an explosion!!!

I am satisfied of my life and I don't want to change it.

Hi, my name is **Gemma**, I'm 15 years old and I'm an only child. I live in Ozzano dell'Emilia a little town very closed to Bologna but I attend the high school called "Alessandro da Imola" in Imola, which is 30 km far from Ozzano. As the journey by bus is very long I have to wake up very early in the morning, however I like it because I am not alone and I have some friends with me from Ozzano. I really like my school because I like foreign languages and there I can study French, English and German, but I also know Spanish which I studied at middle school.

In my free time I like watching films or TV shows and I really like dancing in fact I practice hip-hop twice a week. I like the rhythm and the sound, my teacher is a very good dancer and she is also very kind with us.

I really like music both Italian and foreign especially pop, hip-hop, R&B, but not classic music.

This year I'm attending the second year at high school. I hope it will be a great year considering we also have to work on the E4U project with you!

My name is Eleonora Alberoni. I'm fifteen years old and I was born on 2nd february. I live in Medicina, a small town near Bologna, in Italy. I love the place where I live, but one day I would like to get a job abroad. I'm attending a high school specializing in languages, in

Imola. At the moment I'm studying English, German and French, but one day I will probably go to University and I may study others. In my free time I meet my friends or I do

some sports, in fact I go running and I swim twice a week. I like listening to techno music and watching horror films. I'm a kind and lovely person but I'm also shy

and

quiet, so it's a little bit difficult for me to make new friends. I have got one brother, Giacomo. He is younger than me and I don't really get on well with him. He's so rude and noisy! Nevertheless, I love him very much. I also love cooking cakes and I'm really good at it!
