

Hi everyone!

Ciao, our names are Amina, Daniela, Manuel and Mattia.

My name is Mattia, I live in Imola and I'm 15.

I attend the 2nd year of the "Alessandro da Imola" high school...

There I study languages (and obviously other subjects), the languages I study are German, English, French, Italian and Latin.

My passions are art and music, my parents met each other in the choir of their town and I have a kind of debt with it, so a couple of years ago I've decided to make of the music, my future. For me music is fantastic because, if well written and played, it brings you to another universe, full of sensations and harmony, where heart is as important as brain.

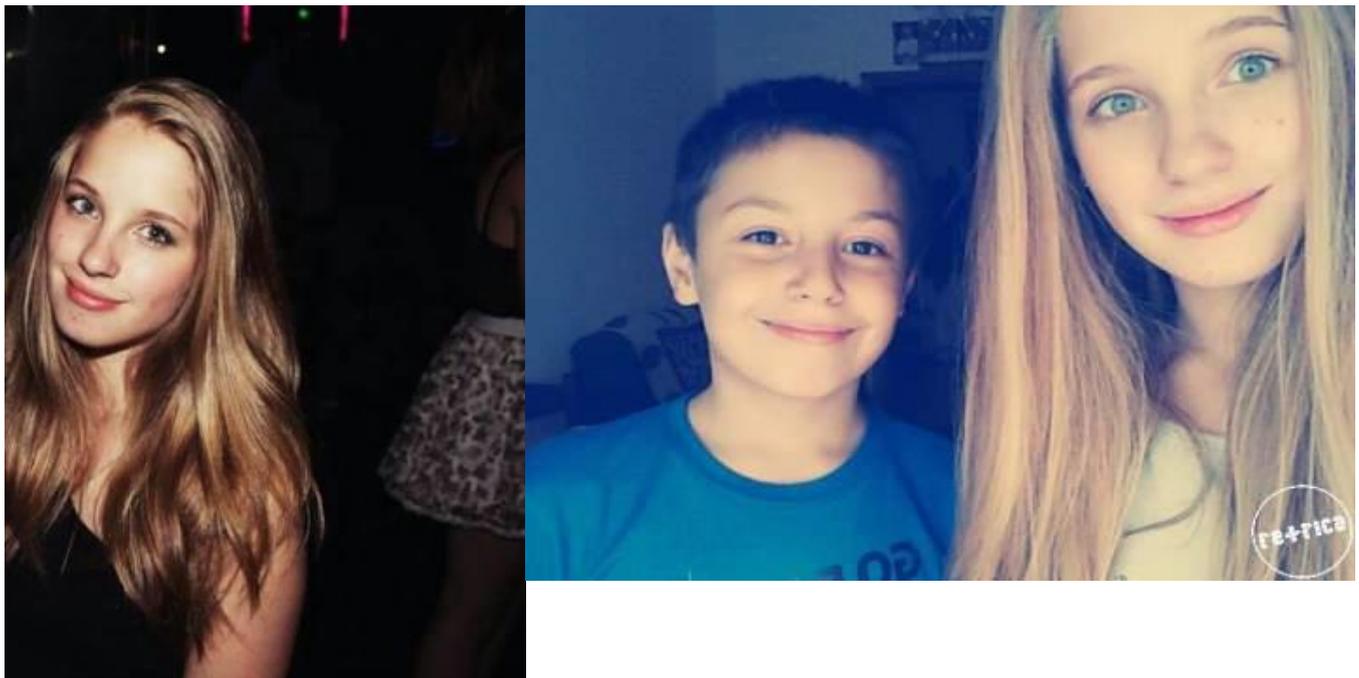

Hi! I'm Daniela and I'm 15 years old. I live in Imola, a little city near Bologna, in north Italy. I live in Italy but I am not Italian, I'm Romanian because I was born in Bucharest, the capital city of Romania. I have been in Italy for 7 years. I'm not very tall and thin. I have blond hair and green eyes.

In my family we are 4: my parents, my brother and me. My mum's name is Mariana, she is 35 years old and she is a factory worker. My dad is called Stan, he is 42 years old and he is a bricklayer. Sorin is my brother he is 10 years old and he is attending primary school.

I'm attending "Alessandro da Imola" high school, a school specialized in languages. I'm studying English, French and German. In the future I'd like to move abroad...maybe in an English speaking country. It would be fantastic.

In my free time I like reading or listening to music. I haven't a favourite kind of music, but I often listen to pop music. I love reading adventure, fantasy or love stories. I don't really enjoy sports, in fact I don't practise any sport now. I did basketball for 4 years but two years ago I stopped doing it.

Daniela

My name's Manuel, I'm 15 and I live in Imola, in Italy.

I like sports, in particular tennis and football. I practise tennis 3 times a week, the training is about 2 hours and half. Instead, every week-end my friends and I, we reserve a field for us and we play football. I also like to stay with my friends and have fun.

My family is composed by my father, my mum, my two little sisters Alice and Viola and I. My mum's name is Beatrice she is a nurse at the hospital of Imola, she is 45 and she like listening to music and painting. My father, instead is a mechanic at a bicycles shop. His name is Marco he also is 45 and he loves sports like me. Infact on Sunday when he is at home we like to go playing football in a park. My sisters are diabolical. Alice is 5 and viola is 3 and they always want to tease me also when i'm doing my homework...but what I do? They are my sisters...

My name is Amina and I am 15. I attend the second class in the High School specialized in languages in the town where I live, Imola, a town near Bologna. I study English, French and German, I love them all but my favourite one is English! I think modern languages are very important to communicate to many people from different countries.

According to my friends, I am really outgoing, funny and friendly. I love joking and laughing. I like to give advices and I get really worried when someone I love has a problem. I have a lot of friends i can trust... my best friend's name is Sofia. I think friendship is one of the most important thing in everyone's life!!

I live in the countryside with my parents. My mum's name is Cristina, she loves reading books and she works as librarian in Imola. My dad's name is Valter. I have a brother, Filippo. He doesn't live with us, because he's just got married. I love pets!! I have a dog, Oliver, and two cats, Arturo and Agata. Oliver is a six-month years old puppy, he is very sweet. Arturo is lazy, always sleeping, he never runs or jumps as a normal cat does.

In my freetime I like reading, watching films, taking photos, cooking, and going out with my friends. I love music...I have been playing clarinet for two years. Another thing that I love is travelling. I like visiting new places and cities. Every year I go abroad to study English with my friends...it's a fantastic experience. This summer I went to Edinburgh. In the future I would like to study and work abroad, it's my oldest dream!

I am very interested in sports. I have practiced athletics for eight years but last year I quitted and now I do modern jazz and classical dancing. I have a lot of fun when I dance. I also enjoy watching football matches on television. When there was the World Cup in Brazil I watched a lot of matches with my dad. I supported Brazil and Argentina but unluckily they didn't win.

AMINA
