

Hello, my name is Bára Bedřichová, I am sixteen years old and I am from Czech Republic. I live in a small village named Pičín and I attend the secondary grammar school in Dobříš (it is about 50 kilometres south of Prague). I inhabit a family house with a big garden with my parents and my thirteen years old brother. He attends the secondary grammar school in Dobříš too. We don't have any dogs because I have a fear from them but we have a little cute chinchila named Čiko.

A large part of my life is affected by scouting. I have lots of friends there and I am proud to be scout. It is my life direction. We often go on some trips to the nature, we meet a lot of new people and we learn new things. So I really love being in the nature and enjoying the silence but on the other hand I like social life in the town, having a coffee with my friends in cafe, going shopping or perhaps noisy concerts of my favorite bands, theatres and cinemas. Last year I found a new hobby. I started visiting some lessons of ballroom dance and I fell in love with dancing. So in the winter I really like going to balls and dancing all night.

Recently I have also spent a lot of time climbing a rocks and jogging but beyond that I do also calmer activities. I really love drawing portraits of people or reading books. My favorite writers are Paulo Coelho and George Orwell but beyond prose I like also poetry. Lately I have been reading only poems like sonets by William Shakespeare or poems of Edgar Allan Poe and other czech poems.

I love cooking and baking and I often invent some new recipes. I like a healthy cuisine so I often use unusual foodstuffs and I like shopping in the shops with healthy food. My best friend likes cooking and baking as well so we often cook some meals together. Lately it has been mostly cheesecakes and other cakes but we also try french cuisine because in our school we have lessons of French and we really like it. Besides cooking and baking I love eating new meals and trying new cuisines which is naturally the best in its own countries. And that is the last thing I would like to talk about – traveling. Every year I go on holidays with my parents and every year we try to visit a new country and learn something new about it. I love mountains so every year I try to conquer a new peak and beat my score of altitude.

Surely there are many other thing I like to do so you can contact me on facebook where my name is Bára Bedřichová.
