

Hi, I'm **Giorgia**, I'm 15 years old and I attend the second years at high school and I study modern languages. I live in Toscanella, a little town near Imola, where I go to school. I live with my mother Stefania, my father Maurizio and my Brother Andrea. My mum is very friendly and with her I like going shopping to Bologna. My father is fond of motor races; when we were in Australia we visited the Philip island's circuit. My

brother Andrea is 17 years old, he likes football, and he plays on a team in Bologna, he likes keeping fit in fact he trains every day. When we were younger we often quarreled.

I'm the youngest of my family. I'm a brown-eyed girl, I've got light brown and long hair, I love to make up especially in winter, when I go to school I have always make up on. I really like going shopping with my mum or my friends because I like to have new clothes to wear. Every time we go shopping I like to go to the perfumery and try the new perfumes because I like it so much. I like having dinner with friends because we talk a lot and we joke together. Another thing that I love is travelling and visiting new places. I'm very lucky because my family love travelling too, so we have been doing a lot of journeys, my favourite is the one we took in Australia, we went there last year because my uncle lives there and he invited us for two weeks. We have travelled almost all of Europe. Since I was 3 I have been doing gymnastic artistic, I started with my brother and since I was 6 I have been training 3

times a week. I tried other sports like skating and riding, but I have never left gymnastic and when I was 9 I played the piano for a year. One big passion of mine is music: I always listen to music. When I'm sad I listen to slow and intimate songs and I get lost in my thoughts. When I'm happy I listen to lively music. I like going to concerts a lot, especially in summer because they take place outdoors.

I like reading romantic and dramatic stories and watching films based on books. I love going out with my friends in the countryside or to the beach to take photos. In my room I have a lot of photos with my friends and also pictures of me when I practise motocross, that is another hobby of mine. I started motocross 4 years ago and my father is my trainer. People think motocross is a sport for men but I think there is not any restriction for women. As for my future I don't know for sure what I will do, but one thing I'm sure of: I'll leave Italy and Europe.

Hi, everyone. My name is **LAURA**, I'm 15 and I live in Bologna (Italy).

I'm a student at a high school specialized in modern languages. I'm in the second year. The languages that I study are English, Spanish, German and Latin. My favourite subject is English while I hate math, Latin and science.

My parents are Sandra and Massimo, I've one brother and one sister. My brother is Andrea and he's 17, my sister is Chiara and she's 9. I prefer to stay with my brother because we have more or less the same friends and we can talk about everything. I've also 2 big dogs.

In my free time I really like watching TV series, movies and videos on YouTube but I love staying with my friends as well. I don't really like doing my homework even if I have to and I do it.

My favourite kind of music is pop music, house and R&B. I also like listening to movies' soundtracks because they make me relaxed.

Hello! I'm **Viviana**, I'm 15 years old.

I'm quite tall. I think I am, friendly and available. I have many friends, and I get on well with most of them. I think I am a happy person, because I like thinking positive and I often cheer my friends up. I live in a flat with my parents and my brother. His name is Lorenzo. He's 11.

He's usually nice, but sometimes he can be very annoying. I attend a high school specialized in modern languages. I study English, Spanish and German. I like these languages very much. I chose this school, because I like modern languages too much and I would like to travel around the world, to learn something about the local language, I think it's easier and interesting. I'd go to America, in the future. Now I can just see it on photos, but I want to visit that big country.

I like all the animals, except insects. I love penguins. I find them very pretty. I have only a little gold fish in a little aquarium!

In my free time I like listening to music, because I love it. I listen many types of music, above all pop music. When I'm sad, listening to particular songs, relax me.

I don't like reading much, but if I read a book that fascinates me, I read it in a short time. I also play artistic gymnastic. I have practising this sport for 3 years. I love it. I often go out with my friends. We go to the cinema, to restaurants or we just hang out together. I like eating almost everything. But I don't like alcoholic drinks. I love peach tea.
