

Hello

Hi, let me introduce myself. My name is Kuba (in english it's Jacob), but my friends call me Besty. I am seventeen years old. I was born in Příbram and now I live in small village called Obořiště with my mum, dad and ten year old sister. It is very close to the town Dobříš, where I study at Gymnasium Karla Čapka.

A little about me

That's me with a view from my garden

Here I am helping my friend :)

I have been a student of Gymnasium Karla Čapka for a year and a little bit and I really like it here. I have the best schoolmates and professors. The subjects I like and enjoy are few, it's just English and Math. On the other hand, subjects I don't like are many, it's Chemistry, Physics, Biology, Geography and even my home language Czech is one of my least favourite subjects. However, professors of each subject are

great, so they want us not only to learn, but to entertain too. I also study Spanish and I really enjoy it, but I have been studying it for only a year, so I can't speak or write a lot. I know just the basics.

Hobbies

One of my biggest hobbies is playing videogames. I play Assassin's Creed, Batman Arkham games, The Witcher games. At the moment I also play World of Tanks and WarThunder. The other of my biggest hobbies is watching TV series, like Doctor Who, The Walking Dead, Breaking Bad, Game of Thrones, Sherlock and many others. I enjoy watching them, because of their great story. I can appreciate a good plot when I see one.

We're with my friend under the London Eye

My next hobby is watching movies, but I don't like them as much as I love TV series. I like movies with sequel, like Star Wars, Lord of the Rings or The Matrix. My favorite movies are superhero ones. I really like those Marvel movies, because their stories are all set in one Universe, which makes them something like a series.
