Conference at Imola with 16 partner schools
May 2004

Europe and Sport -
international conference in
Riccione 2006

International conference - April 2013

Bilateral exchanges:

Here are some pictures of last year exchange with a school in Finland

Project of SOLIDARITY: Long distance schooling adoption for children in BUKAVU - CONGO

Long distance schooling adoption for children in BUKAVU - CONGO

Every year students and teachers of our school organise a series of activities to raise money for the project of long distance schooling adoption in Bukavu (Congo).

- We prepare and sell a calendar, which each year is characterised with a specific topic. The photos in the calendar have the students as protagonists.
- We sell our handcrafted work.
- In June at the end of the school year we collect second hand clothes
- We also raise money selling flowers for Christmas and chocolate eggs for easter.

The project has been carried out for many years and we have assured primary education to more than hundred of young children in Bukavu.

DRAMA WORKSHOPS

Classes 2.0 - students use the school laptops for all their lessons.
