

Hi, I'm **Ginevra** and I'm 15 in fact I'm attending the second year of a high school specialized in languages. I was born in 2000 on april 11 in Imola, where I have always lived with my parents and my younger sister. I'm quiet slim and not very tall (about 1.60 metres),I've big brown eyes and straight light brown hair. I'm an optimistic person, I laugh and smile often because I think it's good for health; in fact I'm

not a moody person and I'm never angry or sad for no reason. But I'm also stubborn and messy.

(This is me on the seashore)

My biggest passion is dance, in particular hip-hop that I practise twice a week and I have also taken part in some individual competitions or with my crew. This year I have also decided to start modern dance that I already practiced some years ago.

In my free time I like to go out with friends and I absolutely love to go to the disco and to parties in general on Saturday night, I'm a true raver!

Others things about me:

- my favourite dish is sushi
- I've two cats, Romeo and Missy
- I'm crazy about shopping and I love to be in fashion
- I like motorbikes and I always watch Moto GP and I cheer on Marc Marquez.

(I took this photo during the superbike here in Imola)

Hi, I'm Elisa

and I'm 15 years old. I have lived in Imola since my birth and I like this town, even if lots of times I wonder how it'd be to live in a bigger city like New York, Los Angeles, London or Paris. I of course love languages, in fact I'm studying English, French and Spanish, but my passions are dancing and music in general. I've been to a lot of concerts of famous artists (Ed Sheeran by the way is my favourite one). I'm fond of films, I also like to see how things work and why they are what they are instead of being something else (I mean biology and that kind of things). I think that my school is a good place to learn and meet people, but the best way to keep in contact with the world, and really learn, it is to practise and travel to different places, that is more enjoyable than anything else. I've been abroad sometimes, but always in the same place (London), because I had opportunities there during my school career. "

Hi! I'm Gianpiero and I'm 15 years old.
I live in Imola, a town near Bologna. Here I was born on January 6th.
At the beginning I'm shy and quiet, but later I become more easy; I'm precise, reliable, anxious and too generous and patient.

Me in Matera, Basilicata

During my free time I read (fantasy, but now biographies too) , listen to music (I haven't a particular kind), play videogames (especially with Nintendo 3DS), watch American and Japanese cartoons (*The Simpson, Family Guy, Dragonball, ...*) and go out with my friends.
I love pizza, crêpes, waffle and almost all Italian food.
My favorite subject at school is French, that I hate is literature: it's so boring and difficult learn so many dates and names of authors and tests. In addition I don't have a great memory...

I've a redfish, two parrots (an inseparable and a cockatiel) and... a sister!
Joking apart, her name is Sara and she is 7 years older than me.
I get really on well with her. She works as shop assistant.
Instead my father is a train driver and my mother caregiver.
They are from Southern Italy, respectively from Puglia and Molise.
Every year, in summer, I go on holiday to visit my relatives there.

My relatives' house in Puglia. It's a Trullo, a typical construction of the place.

I think I wrote enough about me.. what about you?

And now it is ROBERTO's turn.....

Hello, my name is Roberto but you can call me Robby. I'm a student in a high school language in Italy. I live in Imola, Bologna, in the north of Italy. I'm 14 years old. Here I love a lot of things to do, but first things first. I like a lot reading, it's one of my favourite hobby. I've read the three books of Hunger Games and all of the books of John Green, the writer who has written The Fault in Our Stars and at the moment I've been reading the seven books of Harry Potter, of course you will know who is Harry Potter and also that his books are quite old, but I had never tried to read them.

And I also like watching films. For this last month I'm waiting for a lot of new films: Paper Towns, a film about one of the John Green's books, Hunger Games: The Mockingjay part 2 and Fantastic Beasts and Where To Find Them.

Videogames has always thrilled me. I have a Xbox 360 and I spend many hours to play games like Call of Duty, Grand Theft Auto and Fallout 3.

Here it is the cast of the film Hunger Games: The Mockingjay part 2.

But I don't forget my fitness. For this about 4 days a week I train by home, and now I have just started to do swimming lessons.

WHAT I LIKE AND WHAT I DON 'T

Of course as I said before in my free time I like reading, watching films, playing videogames, etc. But one thing I do and I love is going out with friends. Because Imola isn't a very bad city. We have a famous circuit where one time there were the Formula 1's races and I hate to say, but in this circuit it died a great pilot, Ayrton Senna. In Imola there's also a big centre where it is arranged a lot of festivals.

WHAT I USUALLY LIKE EATING AND WHAT I DO NOT

Well, as an ordinary Italian boy, I like a lot eating pizza, especially on Saturday. Then I love so much eating every types of fish: from pasta with mussels to fried fish. I also like very much roast beef and the other types of roast meat, in fact I have done with my sister and her boyfriend a lot of grills. In the morning I usually eat some biscuits and I drink some tea. For the rest I like eating everything except milk-I don't like drinking that-and gnocchi, I hate them.

SCHOOL: SUBJECTS, SCHOOL MATES AND TEACHERS

I find well in my new high school. But I don't like the school hours: we have to get up early in the morning because lessons start at 8.00 a.m. and the boys who have to take the bus, they have to wake up very early in the morning. But belonging to this, it's a good school. The school mates are very friendly and some also a bit weird and crazy. The homeworks are a lot but if you organize well the days you won't have problems. The teachers are also nice....some of them. My favourite subjects are history and English. You will wonder: why history? It's so boring! Well I don't think it's very boring as we always think but I'm very good at history and I'm very good to remember facts and things but, obviously, not the dates.

So I hope to not have bored you, and thanks a lot for reading.

My name is **Alessandro**, I live in Imola where I was born on 5th December 2000. Next year I am attending the second year at a high school specialized in language. My favourite subject is math but I like also Spanish, French and history. Here in this school the lessons start at 8 o' clock and finish after 4 or 5 hours. We go to school from Monday to Saturday. Next year I will go to school by motorbike, but last year I went to school with my dad. His name is Stefano and he is a good father. He helps me when I need his help and sometimes train me at football. I play football at IMOLESE CALCIO. My mum, Cinzia, helps me a lot for French and English. She is a good chef and sometimes she prepares delicious lunches, she is great in cooking lasagna and meat. Here in Emilia-Romagna is typical cooking tortellini and spaghetti. Now I talk a little about me. I think I'm funny and generous with my classmates. I try to approach very well with the people that stay always alone. I'm a kind guy and so ambitious, but now I only have to study for a good job. For the moment I think that I'm a good student. I had a wonderful report card. I also think that I have an amazing class. At the beginning of the first year we were in 26 but now we are only 17 because a lot of school friends went away in other school. I and my class also have wonderful teachers that are severe but not bad. In my free time I like doing sport. For example football, tennis, swimming, jogging, volleyball and many others. I also love travelling: this year in January, my family and I went in Paris and in August in Formentera.
