

HELLO I AM...

Matilda. I live in Italy and I'm 15. I have a lot of hobbies, maybe too many. I love writing fanfictions about my idols, this is probably my favourite hobby. I literally adore inventing and imagining situations which I know will never become true because are unreal. I enjoy drawing. When I have time, I take my pencil, a white piece of paper and I make "covers" of famous paintings. Yeah cover! Just like a song cover but with a drawing.

I play the guitar and the keyboard too, sometimes. I'm not so good but...I like strumming something, especially the songs of my favourite band or songs which I like. Books are a good way to spend time when I'm bored. And I usually watch some videos on the internet or listen to music. My favourite sport is horse riding, but it costs too much for me and my family...unluckily.

Oh I have a huge obsession about 5 Seconds Of Summer. They are an Australian band formed by four members. I am madly in love with one of them. There is no day in which I don't listen at least to one of their songs. I'm obsessed I know...but I'm a fangirl. This is my second job. Music is my life. I always have ear phones on. I like rock, pop, punk, metal and classical music. Music in general I'd say.

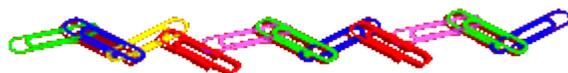

My favourite food is pizza! I love pizza. If I could I would always eat pizza. But who doesn't love pizza? Well...I hate horror films. My favourite TV series is "The Walking Dead", but I love "The 100" and "Shadow hunters" too. What else...ehm...I love learning languages (English, German and Spanish) and I hope to travel abroad one day. Australia is my main objective. But I like America and Germany too. Sometimes I dye my hair (red, blue, violet, black...) and I love piercing and tattoos, but I can't have any before my 18th birthday... I'm very shy, but I think I'm a kind girl. Maybe a bit stubborn sometimes, but I've got my ideas...I'll never make up my mind. And I'm rather lazy. I love being alone with my ear phones. Music is like an armour for me. I'm a simple girl with a lot of dreams: I'm a dreamer. I love animals, horses are my favourite ones. I have a lot of ambitions...I wanna be a musician and a writer first of all, but one of my dreams is to become a psychologist.

I also go to the theatre to see some comedies or musicals, but I prefer to go to a live comedy show.
