

Mobility in Spain

The mobility in Spain took place from to 11th to 15th February. This third mobility was organized by Villa de Abarán secondary school. The participants were students and teacher of the granted schools: Borgese-XXVII Maggio from Italy, Osnovna škola Gornje Vrapče from Croatia, Szkoła Podstawowa z Oddziałami Integracyjnymi nr 214 from Poland and IES Villa de Abarán (hosted school).

The first day, On Monday, we offered a warm opening ceremony to welcome all our partners visiting us.

With our local councillor

Opening ceremony

After this, all students presented their works about , Famous people from Murcia, Geography, History and Spanish cuisine, using multi media presentations, and then we participated in a “breaking ice” game:

a Kahoot related to our Project. Students had to answer some questions about the four participating countries.

Presentation about Spain

Later, we visited a local museum about old professions, in Abarán, where they could learn about old jobs in our town.

Next day, on Tuesday, we could implement the scheduled activities, visiting “Pedro Guillén” Secondary School, where some students of vocational training showed us some molecular techniques.

They obtained foam from cheese and spheres from wine and oil.

Molecular workshop

All students at the vocational training school .

We also visited the Technology centre of canned food, in Molina de Segura, where students could learn about quality procedures applied on food.

In the afternoon, we visited the facilities in a spa in Archena, and we had lunch at a restaurant next to a hotel, where all students could try Spanish paella.

Spa building in Archena

We could know more about our cultural and historical legacy in our region

On Wednesday, we held a “Making bread” workshop in our school, in a wood-burning oven that we repaired and recovered for it, and after this, we tasted it. We could enjoy the product of our own making.

Then, from 11h to 13 h, project meeting was carried out. The teachers analysed the project status, evaluated project activities and discussed further plans and arrangements.

Making bread workshop

In the afternoon, we went for a walk by the Segura river bank.

Waterwheel in Abarán. Segura River.

On Thursday, We went on a trip to Cartagena, an ancient city with important Roman ruins. In the morning, we visited the Roman theatre, the Punic Wall, the Castle , and the port. In the afternoon, the Mediterranean sea.

On Friday, We went sightseeing in the old town of Murcia.

Casino of Murcia

Cathedral of Murcia

Students and teachers could know and enjoy the differents places we visited.

Last day, on Friday, we had a farewell party with the families, to say goodbye .

Students singing and dancing.

Certificates delivery.

This has been a very enriching experience in which we have learnt more about Biology, Physics, Chemistry, and Mathematics, improved our English, had the opportunity to meet new people and other cultures, living together, and what is very important: to build links between other European partners.
