

An example of dump in  
Umbria

The dump is composed and divided in numerous cells. In each cell a special waste is collected.

Cells for  
waste  
collection

The external  
dump  
has an  
underlying  
layer of clay

Our students  
In front of the  
new dump

The students  
check  
the cleanliness  
and  
the good quality  
of the soil
