

PROJECT TITLE:

“THINK GLOBALLY, ACT LOCALLY!”

Earth Day
April 22

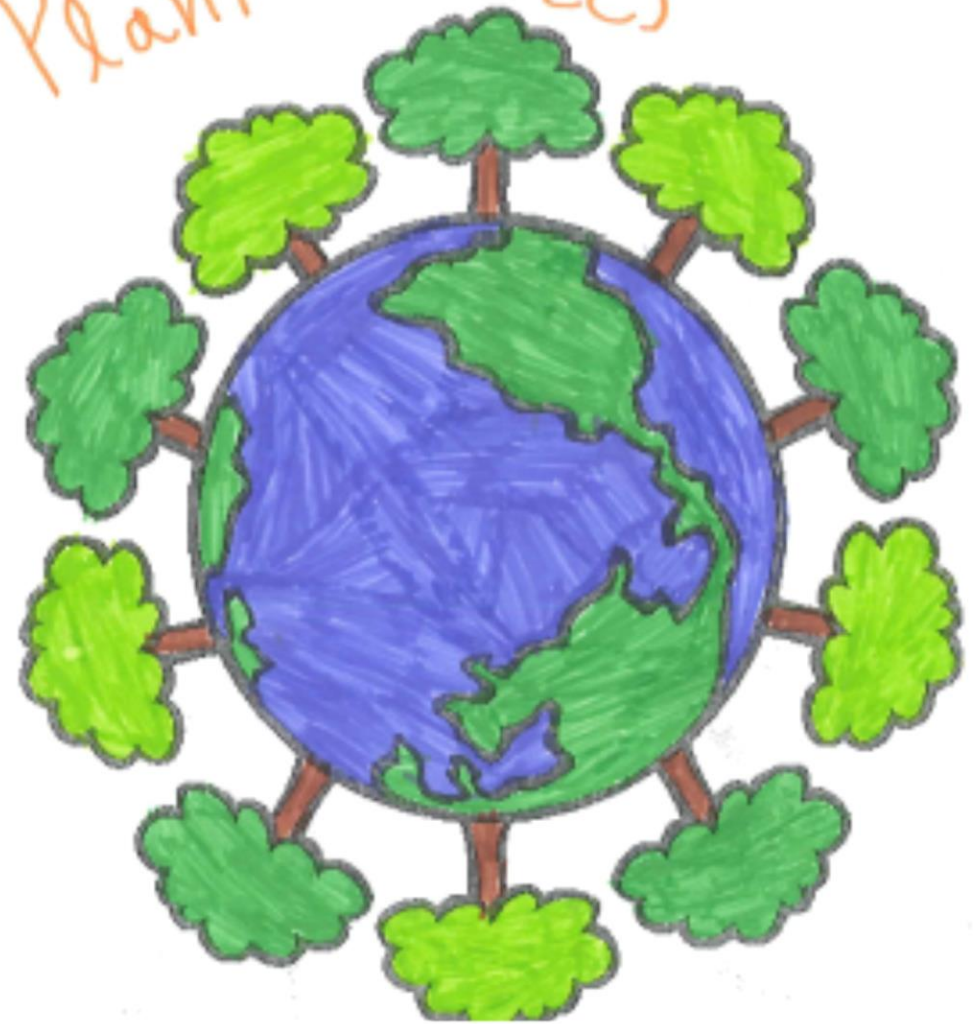

Purpose of the activity

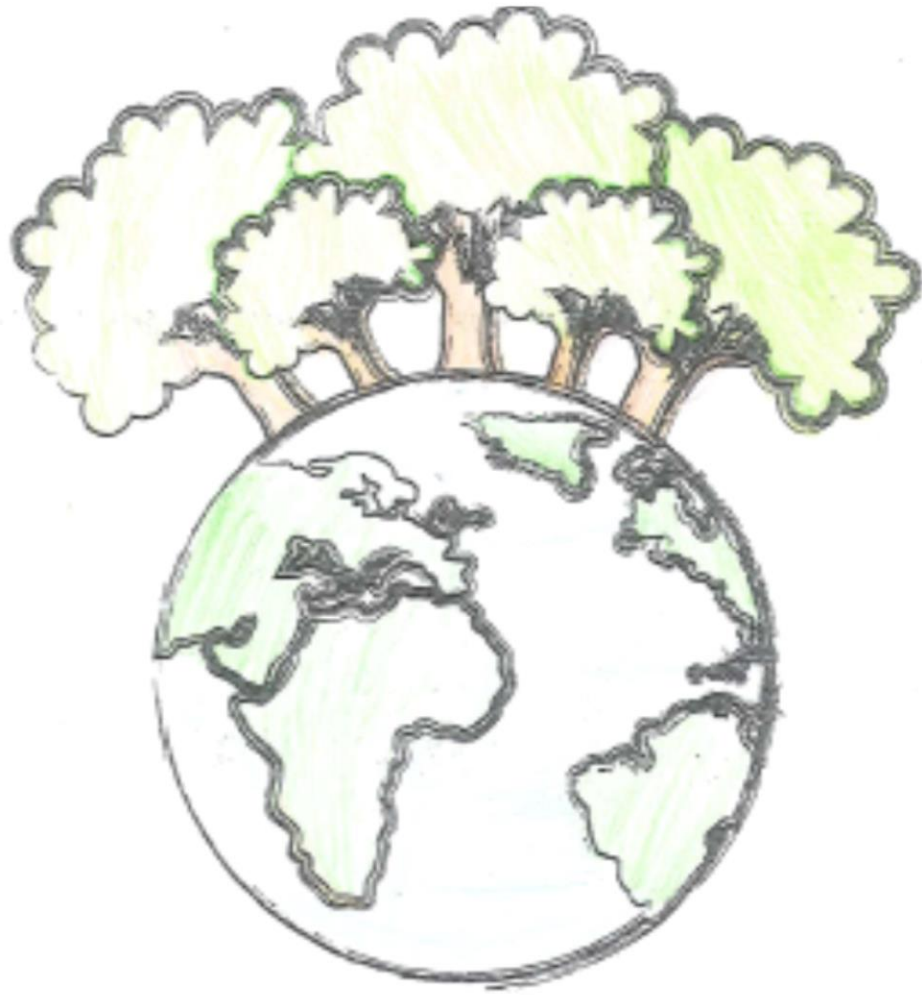

Earth Day is a global event each year, and we believe that more than 1 billion people in 192 countries take part. It is a day of political action and civic participation. People all over the world are doing various actions to send their own message for a clean planet. Our students, in the framework of Earth Day, were informed of its symbolic significance and sent their own message through their paintings and poster construction.
