Population

The Greenest City Action Team's project.

And its proposals:

About the team.

- The team was created in 2009.
- They have 15 goals to get their proposal.
- In 2020 all the buildings will be ecofriendly.

The most important ideas from the GCAP.

Reduce the use of CO2.

The emissions of this gas have been reduced a 7% since 2008, and they expect it to continue decreasing.

Ecologist transport.

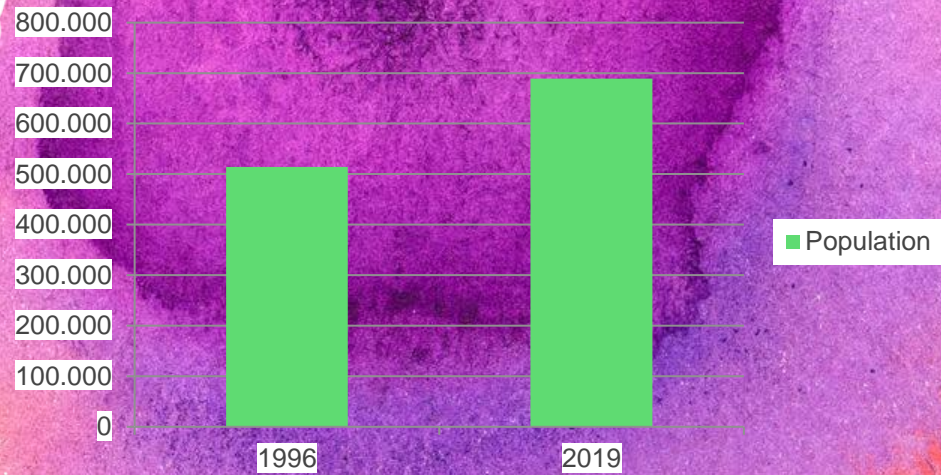

In 2015 the 50% of all the trips were by bicycle, walking or in public transport a 40% more than in 2008.

During that period the trips in bicycle were duplicated passing from 50,000 to 100,000.

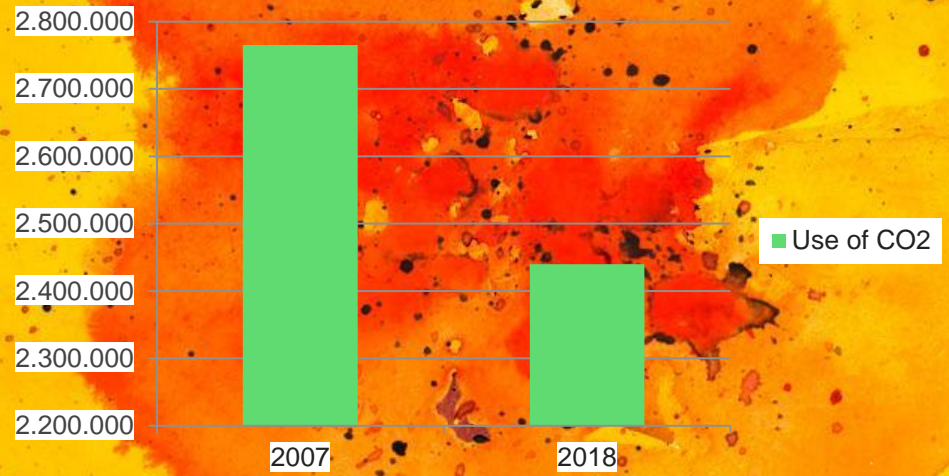

Their
achievements:

Population

Use of CO2

Public transport, bicycle or walking.
