

DISCOVERING THE SCHOOLS

- The bubble

It's a place close by windows pane that why because we call it the bubble. There are chairs for staying in calm.

When the students have free time, they are sitting there.

Inside the bubble, we can see all the playground, that's cool because it seems like we are outside.

- The boarding school

There is a boarding school in our highschool. It receives the sporties students and the students who live far away from the school.

They are received for staying all the week, for sleeping and eating. There are professionals soccer-players, judo practisionners and rugby players.

There are too a few middle school students who comes in the residency.

They are monitored and they have time for work. The internals can go to the self for eating.

The highschool have a lot of rooms. Boys and girls are separated for security.

- The gymnasium

The students and the teacher use the gym to do sports. We're doing badminton, basketball, soccer or handball. The gymnasium is located externally of the high school. We must go on feet and it is at 5 minutes.
