

THURSDAY PRESENTATION

On Thursday we went to the city of Lodz, which translated means "boat". Our first destination was the University of Lodz and took part in a lecture about migration and development of the city.

Then we were taken to Manufaktura, where we had 2 hours of free time.

After splitting into smaller groups everyone did something else, for example shopping, eating or ice-skating.

Our next stop was the Museum of Poznanski, where we saw how wealthy people lived in Lodz in 20th century.

It was easily reachable by foot and was not far from Manufaktura

At 16:00 we headed back to the bus and traveled back to Koneskie and spent some time together. Everyone had a really great time!:)

the " SACRA FAMIGLIA"
