

Foreign children in our school

Our primary schools

MARCO POLO

DUCA D'AOSTA

In our school we are all friends: we don't look at the colour of the skin, religion or nationality.

In our school we look all different: you can see tall or short kids, with blond or brown hair, with green or brown eyes, coming from Italy, Albania, Cape Verde, Morocco, Cuba.

Diversity is richness for us.

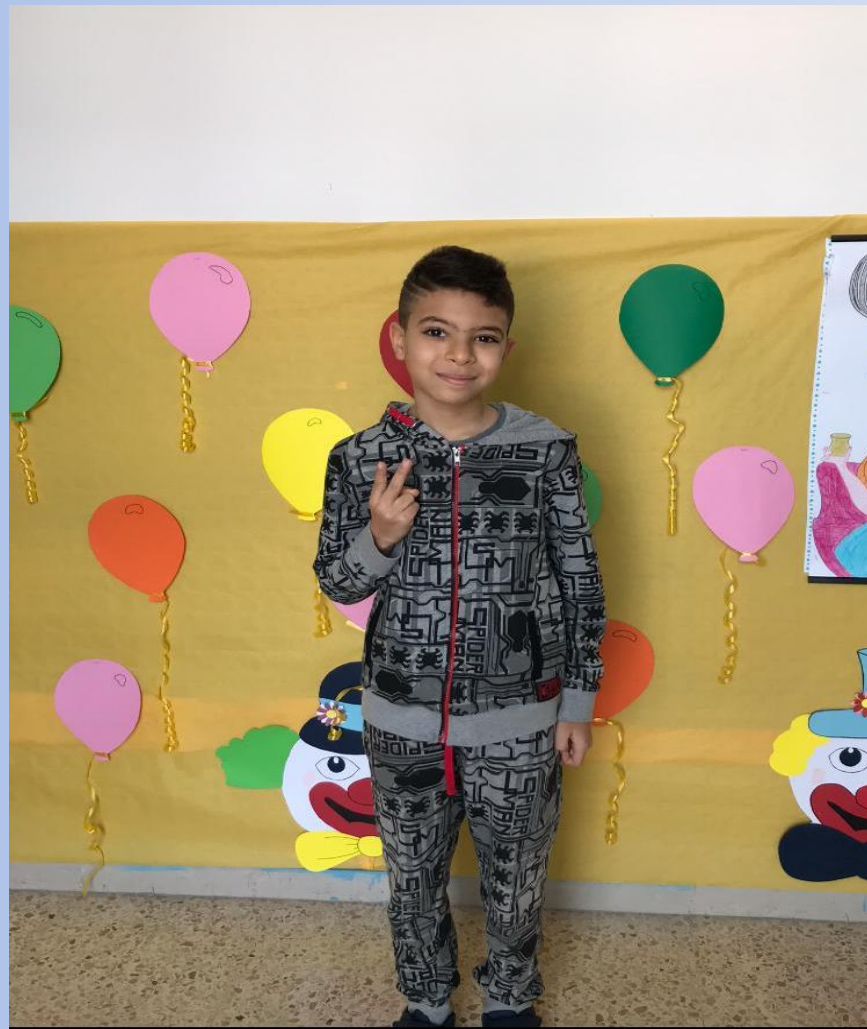

Anyway at school we are equal because we all have the same rights and the same musts.

Here they are some our friends...

**She is Stella Rodriguez she comes from Cape Verde.
She is very good at dancing, she speaks Portuguese. Her
language sounds so good!**

He's Nidam Mohamed.

**His parents come from Morocco, but he's born here in Italy.
He often tells us about Islamic religion, Ramadan and his traditions.**

He's Endi Sallaku his parents come from Albania, he's good at Maths.

He's Gioele, he's Italian and he's very good at singing!

**At school we study and work all together.
We help each other.**

We play games and we always have fun.

As we are all kids of the same school, we dream that also outside, we can only be human citizens of the same world.

We dream to break walls and borders and build bridges.

Thank you!!!
