HUNGARY-SZÉKESFEHÉRVÁR

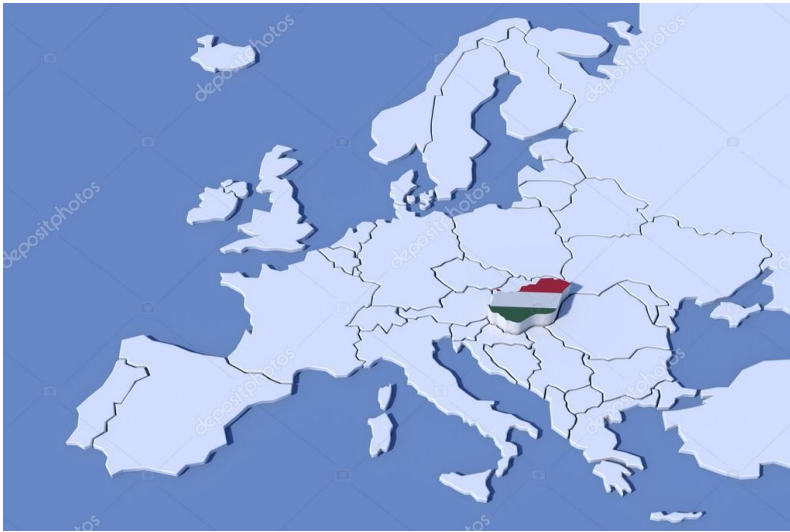

ERASMUS+ 2019-2021

PLACE TO BE... TO LIVE IN HARMONY

Erasmus+

HUNGARY

- Hungary is situated in central Europe
- Hungary's capital and the largest city is Budapest
- With about 10 million inhabitants, Hungary is a medium-sized state of the European Union. Hungary joined the European Union in 2004
- Hungary is divided into 19 counties. One of them is Fejér county, the administrative centre of this county is Székesfehérvár.

Székesfehérvár

- Székesfehérvár is one of the most ancient towns of Hungary not far from Budapest (capitol city)
- Our city was established by Géza, the Grand Duke as princely dwelling. (972-997)
- Székesfehérvár was the capital city of the Kingdom from during St Stephen King.
- From this period we have only Ruin Garden, but it was the Cathedral the coronation and buried place of kings. (named National Historical Site)
- Nowadays our industrial city is important in Hungary – 98.000 inhabitants – lot of multinational companies.

Szivárvány Óvoda – Rainbow Kindergarten

- Unified kindergarten – 9 class
- Compulsory from age of 3
- Every children go primary school from age of 6, sometimes age of 7, – it depends Committee of Expert opinion.
- 20-25 children / class

- The role of preschool teacher in essential – 2 teachers /class

Supportive employees

- 1 nurse / class
- 6 pedagogical assistants in part-time job /4 hours/day
- 1 secretary
- 1 repairmen/gardiner
- 1 Head-teacher /director

Kindergarten teachers

- Every kindergartens are operated by professionally qualified staff – diploma with college degree.
- Qualification system – Intern for 2 years – pedagogue 1 – pedagogue 2 – master pedagogue level – the salary is increase (even though underpaid teachers) so there is a shortage of kindergarten teachers!

The Basic National Program for Kindergarten Education - Is the frame of our work

We have made own Pedagogical Program

- ❖ Our pedagogical principles are all based on the premise that every child is a unique and autonomous person.
- ❖ Our education program also promotes environmental protection and healthy living. – „Green Kindergarten” program
- ❖ Improvement social mental and intellectual skills – methods, activities, goals.
- ❖ We have integrated education – special needs – special education teachers and kindergarten teachers
- ❖ We also prioritise our child-centred approach, and individual development.

- ❖ High priority to playing, as the primary form of kindergarten activities.
- ❖ Free play – spontaneity, - the role of teachers is only provide the setting and conditions for playing.
- ❖ We organize mixed age and same age classes
- ❖ The development and improvement of competences and skills, knowledge and attitude by organised learning activities

Learning activities — planned and organised by kindergarten teachers, the children prepared the school.

- The kindergarten activities specifically target the development of the children's cognitive skills such as their sensory awareness, perception, attention span, observation, memory, reflection and problem solving. The aim is: Ready for school
- We create motivated environment and atmosphere for learning.
- The learning during experiences – motivate to learning – curiosity of children
- Playful approach with many tools and toys – ensure action!

Curriculum:

- Arts and craft – creativity, drawing, paints, pottery clay, plasticine
- Singing, dancing,
- Tales, stories, nursery rhymes, poems,
- Physical education,
- Active knowledge of the surrounding world - with environmental and mathematical content.
- Native language development.

We have to record the developmental diary twice a school year.

Thank you for your attention!

We are looking forward to Székesfehérvár!
