13. Would you recommend an Erasmus+ experience to your classmates? 73 responses
Yes No I would recommend it for people who want to participate voluntarily. I really like the experience in the Erasmus+ project. You found new friends and you can learn very much from other cultures...

14. Are there any other skills that you have improved/acquired during the first year (e.g. improved your Italian or German language skills, learnt how to debate, etc)? 73 responses
No.

no

No

Italian language skills

I am more self-confident when I speak English, but I also learnt some Polish words and plays.

I improved my English skills and my knowledge about the culture of my country

I've learned how to debate and I became more self-confident

learned how to speak in front of many people

I have improved my German quite a lot. I also improved my presentation skills.

/

In the first year I acquired Slovenian language skills

I improved my cultural knowledge and learned some Italian words.

I have learnt to be more confident

Improved my English, improved my social skills, learnt how to debate

I've improved my English, thanks to being in contact with a lot of people to speak to; during this year I've discovered unknown and unexpectedly extraordinary cultures. One of the parts that I've enjoyed the most was the public speaking, I found it really interesting and helpful.

At the beginning I was very sceptic because this ERASMUS+ project has been my first exchange experience but at the end I found it very exciting. The exchange was very interesting because I went to Germany and I liked the International Groups working because in every group there was one person of each country so we could compare our ideas. We did the same thing when they came to Italy with the Public Speaking, thanks to lessons given by a Polish teacher.

I learned numerous words related to public speaking this year

No, I really can't say that I have the feeling that I have improved any skills.

I learnt to debate and I have acquired more security

I learnt how to debate, I discovered some new programmes to create presentations, I became more self-confident and I started coming with an initiative more often than before.

I have known new traditions and ways to live that are different than mine.

Thanks to exchange I overcame language barrier, learnt many useful, daily phrases. Due to international members I get to know facts about different cultures. Living with amazing host family I was given chance to literally immerse myself in Italian language. Within a week I

could improve my language. Now I am quite confident using both English and Italian, which would have been impossible without this exchange :-)

I learnt to be more confident

I have learnt how to debate in public speaking

Yes, I improved my language skills in both English and German. I learned to talk to someone I did not know at all in English or sometimes in German. I learned a problem of difficulties and always learn one way or another. I learned a look at keeping up with others even if I was not tall

No, there are no other skills I have acquired but the above-mentioned ones.

Now I am more confident to talk publicly

to talk more fluently English

I think I have improved my German language skills at least a little bit.

improved my body language

I have acquired the basic knowledge of the Italian language.

I improved my German a lot.

I have learned to prepare Italian food and learned a few expressions in Italian and German.

improved Italian

Learnt a bit Italian

learnt how to make presentations

get out of my comfort zone and don't be scared to talk to a bigger audience

Yes, I know now some Italian words.

I have more self-confidence than before, I'm not that nervous like before when I have to have a speech or a presentation. The workshops were very useful!

Yes, I learnt how to communicate and work on projects with people from many different countries

Vocab

Learn how to debate

I would say that my German got a bit better

Developed skills for tracking when the meetings are taking place and not missing them :).

I've found out that my German isn't that bad than I thought it is.

Ability to understand people who don't speak English well

I learnt how to cook while in Germany

learned how to debate

not yet

I improved my debate skills

I improved my debating skills

no skill

I have improved team work

My pronunciation

Not really since I haven't participated in any exchange yet.

Yes, I improved my Italian or German language skills, learnt how to debate

Yes, I improved my Italian or German language skills, learnt how to debate

after this experience I have more confidence in myself and I'm not afraid to speak foreign languages with some strangers

I improved my public speaking skills

I've learnt strong Italian body language

I learned a little bit of German

I have improved my German a lot.

German language

I learnt how to debate

I have improved my German language

Debate

15. If you wish, please give us extra information, observations, comments or recommendations that may be useful for us while planning year 2 activities on Twinspace, extra lessons in our schools and mobilities in Slovenia and Poland:23 responses

No

I don't have any comments or recommendations.

Visit more historical places.

Sometimes the Italian teachers spoke Italian to us, that was a little bit confusing because we did not know what to do.

It could be better if we could have more free time and less activities such as using Prezi or more.

In my opinion, exchange partners should have more contact before meeting, and during the permanence abroad more time should be spent discovering local culture and lifestyle.

I liked a lot of intercultural exchange moments, as group dancing, when we played the role of others. I recommend to have such experiences even next year.

Let's have fun in Slovenia

I suggest more time in international group to compare ourselves

I would suggest making international activities from the very first day, and mixing the groups, in order to give us a chance to get to know more people.

I haven't any recommendation

Everything that has been done seems appropriate, we must not add anything else.

/

In my opinion we should get one free day to live like a local person. For example: going on normal lessons and others.

I wish we were able to host the same student who hosted us.

I think that having group projects outdoors makes them more fun and gives us the chance to get to know one another even better.

It would have been great if the program wasn't during a really stressful week with exams.

Other than that it was a great experience with a lot of amazing memories.

I think the first year of the project was very good but I would like it if we get the information about the plans and flights a little bit earlier (just if it's possible...)

How it was made in Gragnano could also be done in Slovenia and Poland would be great a lesson about the differences between countries

I wish the exchanges lasted longer.

Better organization, more intercultural interaction

Thank you!

.
