

The turtle of Sax

BY LLUM CAMPELLO

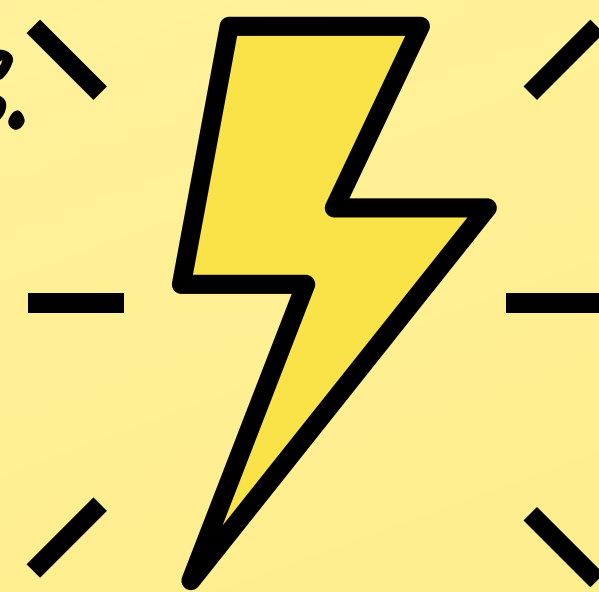

Once upon a time, in the castle of Sax lived a beautiful princess. In the same castle also lived a sorcerer who was in love with her.

One day the sorcerer saw that the milkman was hugging the princess because they were in love.

That day he got so angry that he threw a thunder to each one of them in order to turned into rocks.

The princess became a needle of stone and the milkman became a big turtle of stone too.

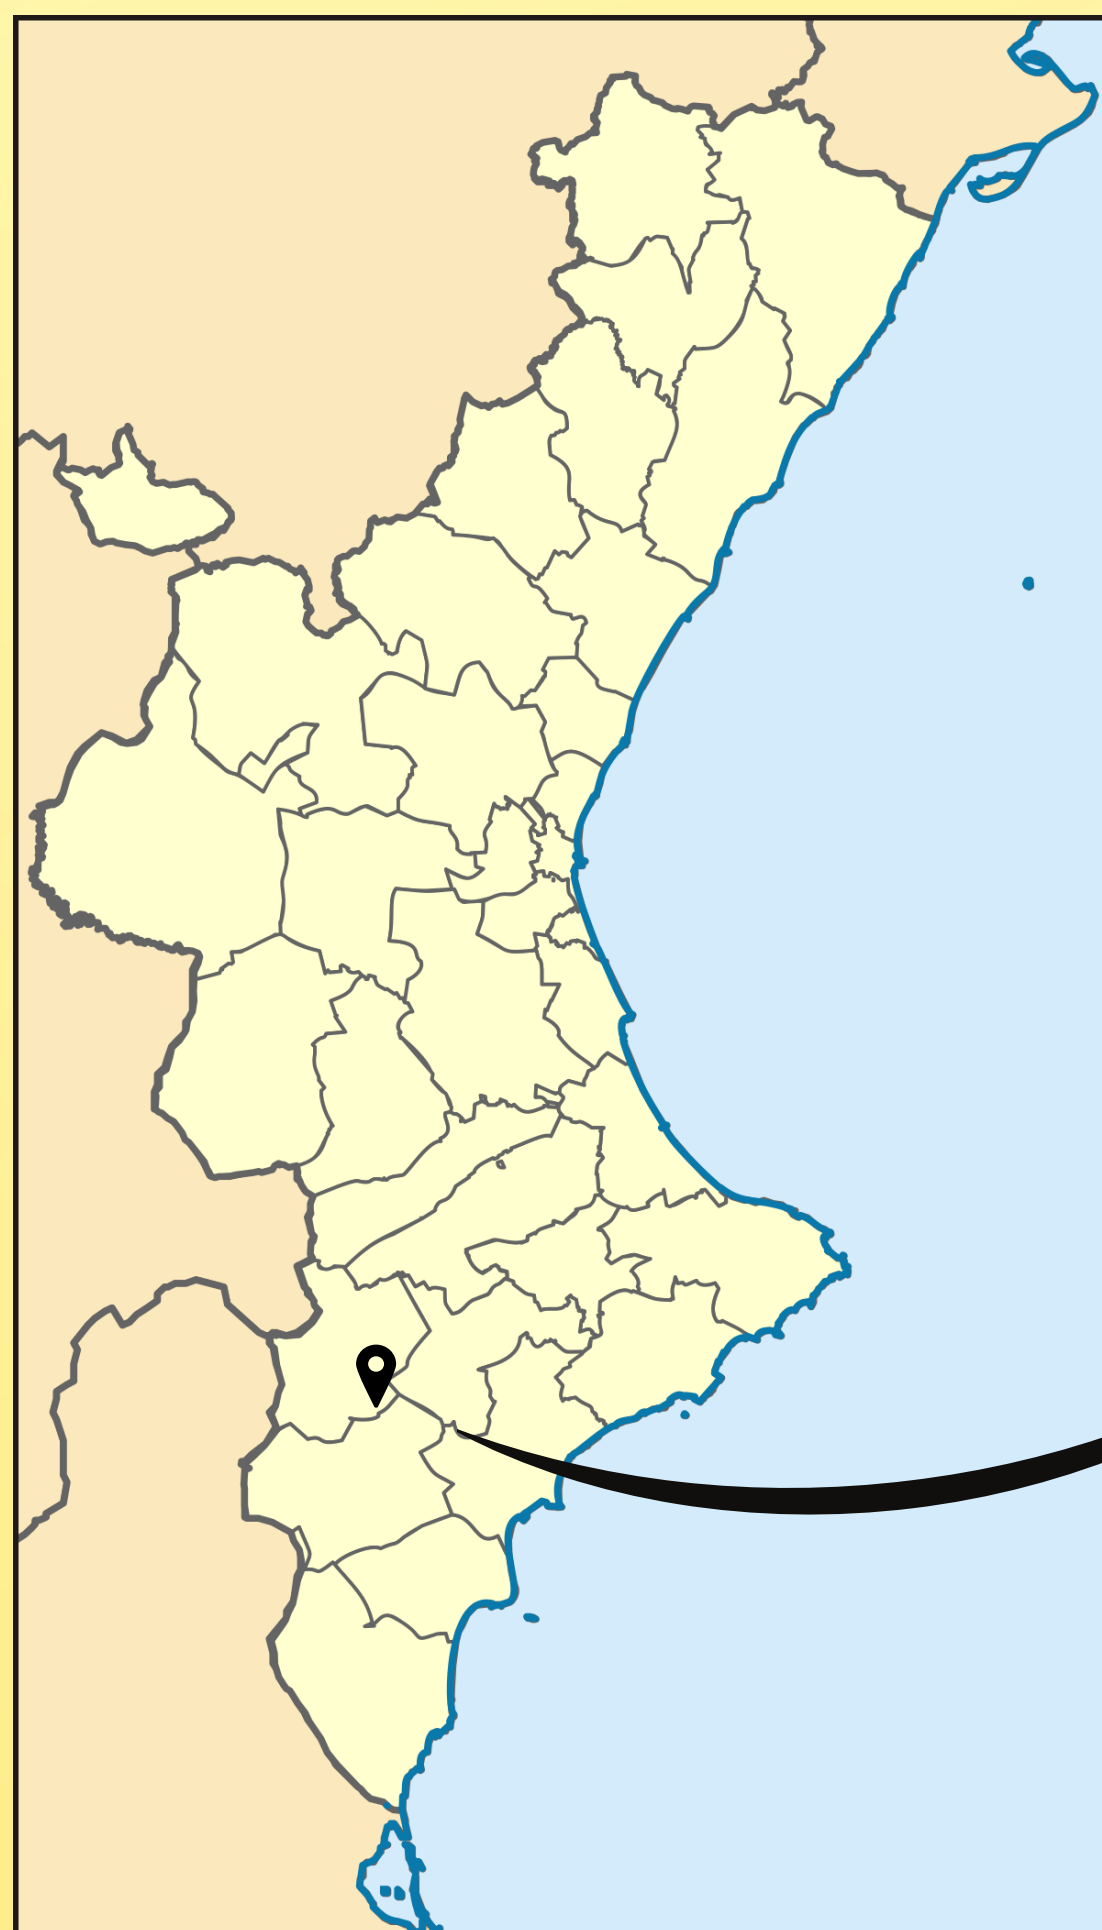

The legend says that lovers get a little closer each year but very slowly, like a turtle. Maybe one day the turtle will reach the rock to kiss it. That day the lovers will come back to live.
