

Minute of meeting, Tuesday 29th of March 2022, Moss

We started the meeting by discussing what is expected of the project, when it comes to reports. There are reports that should be handed in several times during the project period. These reports should follow the same pattern - Who, What, How, When  
Who – who participated, number of classes, pupils and teachers?  
What – what did we do?  
How – by which methods did we work, did we do it at school or during periods of homeschooling?  
When – when did we do it?

After each visit we decided that the land hosting the visit should be responsible for writing a report. This will inform about all aspects of the visit also the social side, including photos is also a good idea.

eTwinning

All countries are to write some information about each sustainability goal they work on, this should be presented on our eTwinning page. Pavlina has made the page understandable and easier to maneuver.

Certificate of attendance

All participants will receive a certificate of attendance after each visit, these certificates are made by the hosting country. They do not need to look the same from each visit, but to make it easier we (Norway) will mail you a copy of the one we made. Feel free to change the design just remember to get all the essentials on them.

The questionnaire, most countries have done something with this.

The song

In our project description we stated that we should make a song. Each country should think about it, and we will discuss it in Greece. There are several suggestions, sing in English (new melody or new lyrics to an old melody), flash mobs (we all sing it at the same day, at the same time), sing in different languages.

Art

We decided to make an art exhibition in all the countries. The focus must be sustainability, so redesign is one of the ideas. The host country can make a small exhibition for the pupils to see. If we make bigger artefacts one could take a picture of it and bring the photo. Pavlina will make a new page on eTwinning "Art gallery", one for each visit.

Mobility tool

The coordinators will discuss and explore Mobility tool in a separate meeting in Greece.

We talked about how to get more interaction between pupils from different schools
