

Social Integration in Spain

María Elizabeth Coronel Santacruz
B22HS

What is Social Integration?

How do people from different groups in society come together?
And how is this maintained?

The **aim** of social integration is to respect...

✓ Reduces conflicts in society

✓ Helps us feel more connected to our community

WHAT DOES SPAIN DO TO CONTRIBUTE TO SOCIAL INTEGRATION?

There are several organizations and facilities that Spain offers to minority groups

SOME EXAMPLES ARE:

ORGANIZATIONS

They protect minority groups, especially women and children, and help other communities in Spain such as indigenous people to maintain their heritage and cultural identity, to ensure vital access to healthcare, interpreters and accommodation.

'Cáritas Española' aims to carry out the charitable and social action of the Church in Spain, through its confederated members. They promote the comprehensive development of people and towns, especially the poorest and most excluded.

Manos Unidas is a non-governmental development organization of the Catholic Church and volunteers in Spain for the help, promotion and development of third world countries. Its purpose is to fight against hunger, ruin, eviction, poverty, underdevelopment and the causes that cause it.

ORGANIZATIONS

They are also the world's largest provider of vaccines, and they support child health and nutrition, safe water and sanitation, quality education and skill building, HIV prevention and treatment for mothers and babies, and the protection of children and adolescents from violence and exploitation.

The International Committee of the Red Cross (ICRC), founded in 1863, works around the world to provide humanitarian aid to people affected by conflict and armed violence, and to promote laws that protect victims of war.

'Médicos sin fronteras' is an international medical and humanitarian organization that provides aid to victims of natural or human disasters and armed conflicts, without any discrimination of race, sex, religion, philosophy or politics.

GROUPS OF DISADVANTAGED PEOPLE THAT ARE INTEGRATED IN SPAIN

DISABLED PEOPLE

Spanish public institutions have aid for people with disabilities equal to or greater than 33% and there are also benefits and discounts for people with disabilities in public and private activities.

IMMIGRANTS

Mixed pattern of cultural
and social integration

The immigrant population lives and interacts with the native population and, in general, these relations are **good** and **cordial**. There is regular and direct contact between both groups; we are co-workers or desks, we share train and bus cars, squares, shops..., in short, we are **neighbors**.

REFUGEES

The United Nations High Commissioner for Refugees (UNHCR) supports refugees, asylum seekers, stateless people and people in need of international protection in Spain.

CONCLUSION

In a world in which the current COVID-19 crisis is showing us that it is more connected than ever, it has been shown as noticeable evidence that the best way to protect ourselves is to protect others. We deserve measures of equity that unite us as a society and help us reduce uncertainties. These are just a few examples of what Spain can do to further unite society.

**«We are only as strong as
we are united, as weak as
we are divided».**

J. K. Rowling
