It looked very fun and educational at the same time

Through out this project apart from all activities I personally did not see them talking or having conversation or debate where I could see how much they are into speaking Spanish.but on the whole this project is a brilliant idea n I personally can see the difference in my son his approach to the language n socialising with people..it's a marvellous n life time experience for him n for us as well.

it was amazing

It was a great experience for students to communicate and learn the Spanish culture in a different way.

I strongly recommend that this project to be carried At all times because practically the child is learning by experiencing culture n the language..I would have only one suggestion as I mentioned in my first question,I would like to see them having like debates or presentation speeches in Spanish that would have been more nice but I don't how far they are at that the moment in learning the language...may be i m expecting too much..but all the children's done brilliant job with the help of the teachers..good job keep it up..
