

Natupark

Andrea Marco, Elisabeth Farré, Júlia López, Julean Vera i Maria Fernanda Niemes

Situation

Naturpark is a natural park where there are different circuits where you go between the trees where there are different bases. It is an adventure!

Circuits: The green is the most easy and the black the most difficult but also there are more: green-blue-orange-red-black

Below are some pictures about our adventure, we have a very great experience.

This is a picture of when we are paying attention to what the monitors explained before we started.

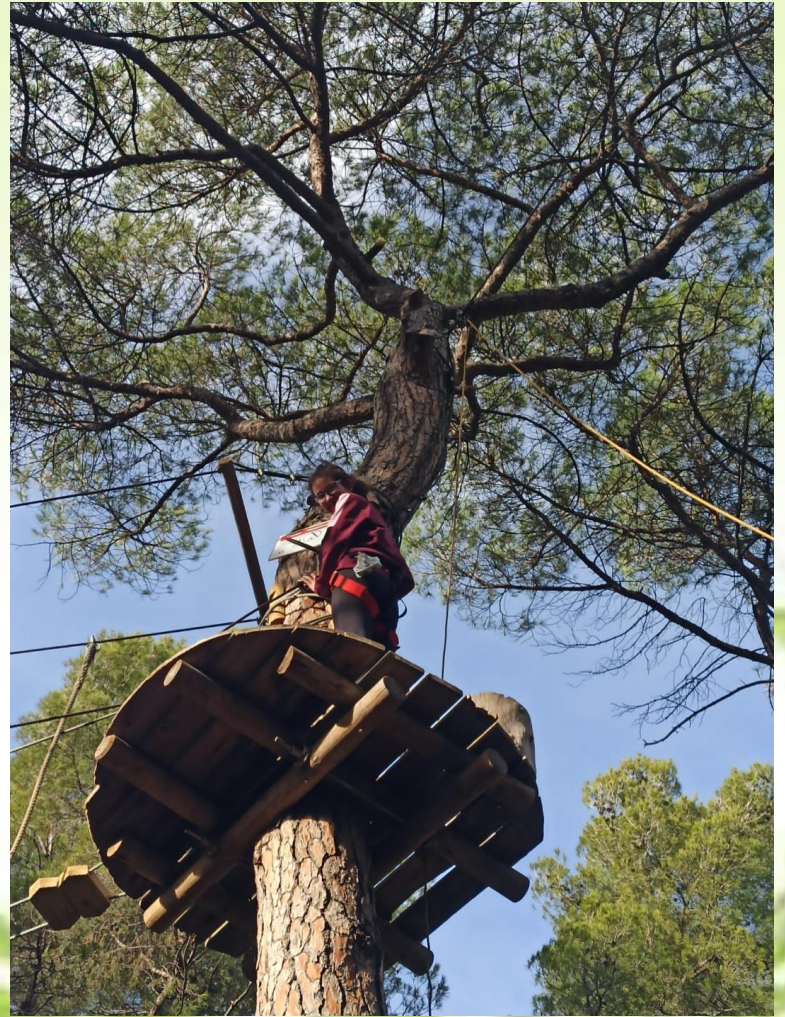

The following images are photos taken when we were just starting out in the practice area.

In this picture Andrea comes out when she was doing the red circuit, one of the most difficult.

Feelings at great heights!

For us it was a great experience as well as extravagant fun, there were parts where we were scared and it was very difficult for us but when we passed them we were very happy.

These were the ones we did:

- Andrea and Maria: two blue and one red.
- Julean: one blue and one red.
- Julia and Elisabeth: two blue and two green.

Photos with the group

When we were waiting to get on our first circuit

■ We have achieved it, we have finished the circuits!!!!!!

■ We loved this excursion.
