**QUESTION 10: Is this your first eTwinning project?**

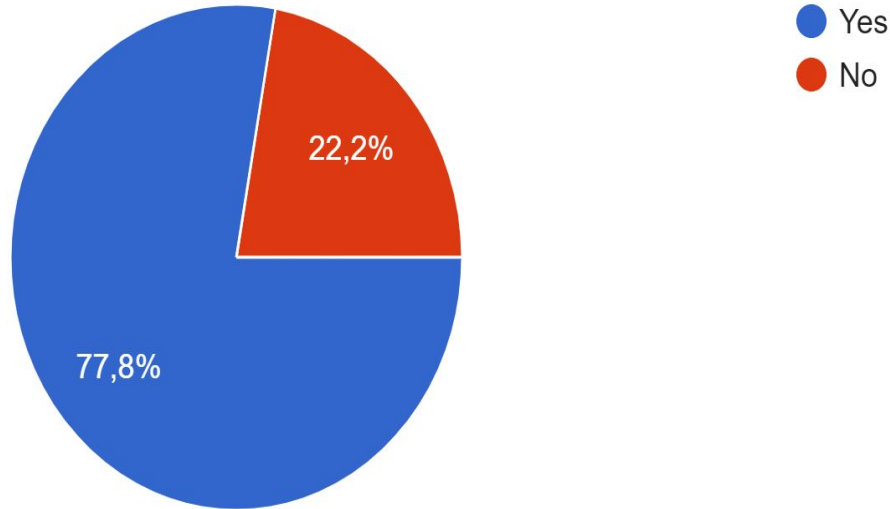

**\*3 people are participating in an eTwinning Project for the first time!**

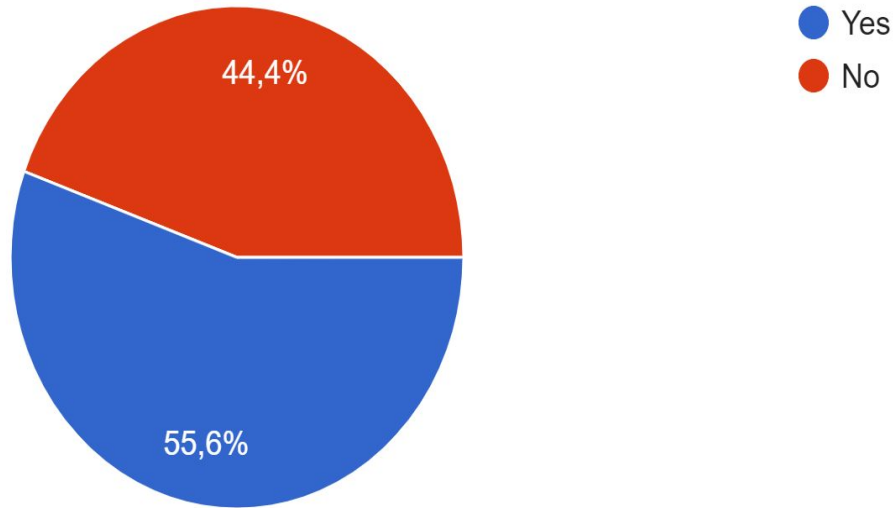

**\*6 people have participated in eTwinning Projects before!**

**QUESTION 11:** Do you think your students are aware of the importance of recycling?

**QUESTION 12:** Do you think your students are aware of the importance of consumption habits?

**QUESTION 13:** Do you think the institutions in your country pay attention to environmental issues?

**\*Most of us have answered YES, BUT we think it is STILL NOT ENOUGH**

**\*2 people have answered NOT SO MUCH**

**\*1 person have answered NO**

# QUESTION 14: How do you think this project will contribute to your school, your students and your professional development?

1- First of all, the students will pay attention to the recycling. We will also affect other students in the school. Next, the institution will be aware of the consumption, so it will try to change its habits.

2- This project will raise awareness on environmental issues among the students, it will promote school as the one being involved in eTwinning project, this project will be seen as advantage when it comes about my professional promotion to appointed teacher.

3- I think this project will help my school, my students and I to be more aware of the importance of environmental issues and how important is to take care of the world where we live. I think it will be a funny way to learn it!

4- This project will raise awareness among my students in my school and project.

5- With this project my students and their families will be more sensitive to the environment ,so we will contribute to the future of the whole world.

**QUESTION 14:** How do you think this project will contribute to your school, your students and your professional development?

6- This project will help develop students' environmental awareness and it will also help me to grow professionally as I will be able to collaborate with teachers from different countries.

7- Our students and other stakeholders will be much aware of environmental problems and their solutions

8- My students will learn more about environmental issues and maybe their parents will do the same.

9- I think that the project will have a positive effect on developing students' awareness of ecology, students will transfer the acquired knowledge to parents.

# QUESTION 15: According to your point of view, what are the benefits of eTwinning for you and your students?

1- In my opinion, the students encounter new friends from other countries and this enables them to open new doors in their horizon. They also try to learn and speak English and this improves their education positively. Moreover, they spend their free time efficiently with the project activities.

2- It gives a chance and opportunity for me and my students to participate and cooperate with other international teachers and students, it raises awareness on environmental issues by taking part in ecologically-artistic activities on every month basis, it will be great fun, experience and motivation for me and students to do the tasks, share it and present to our eTwinning partners.

3- I think eTwinning gives you the chance to get out of the context of the school and to show students the great functionality of the language, moreover they are improving their ICT skills to work in team and they are learning extra curricular subjects in a funny and motivating way.

4- Digital and eSafety practice, innovative and creative approaches to pedagogy, promoting continuous professional development of staff and collaborative learning practices with staff and students.

**QUESTION 15:** According to your point of view, what are the benefits of eTwinning for you and your students?

5- I think eTwinning projects issues are very successful in raising awareness. It enables us to follow technological developments, and also strengthens communication skills and supports language development.

6- The possibility of working with people and students from different countries, becoming acquainted with other realities and learning to work in a common project.

7- The communication and interaction among us will yield positive results such as collaboration, inspiration and imagination.

8- My students are very happy to work in this eTwinning project. They will meet new children, build new friendships and learn new ways to help our planet to stay healthy.

9- Developing environmental awareness, gaining friendships, sharing experiences...

**THANK YOU Mr Bees!**
