## Coronavirus is under control in China

(The cases of coronavirus in China are 40% less frequent and the deaths because of Coronavirus are 52% less.)

The famous neurologist called ZhongNanshan stated last Thursday that China is going to have the virus under control by the end of April.

The cases of coronavirus in China have been reduced but the cases in other countries like South-Korea or Iran have increased. In Italy there have been more than 350 confirmed cases in weeks and 12 dead people. In Iran there are 245 cases and 26 dead people.
