The 5th meeting of Erasmus+ project programme was held in Spain in May. All countries participated in this meeting despite of the Covid 19. Children stayed at the families houses and they could make new friendship and speak English to improve their knowledge of this language. They worked together at school to complete project activities like making fake/true articles about Spain meeting, workshop with journalist or reading articles from newspaper and identify them.

On Tuesday we went to the shopping centre. We were there for two hours and we bought a lot of things. After that we spent our free time at the Fresh corner. We were talking and drinking the milkshakes. Suddenly my friend noticed that she hasn't got her bag with these new clothes. We immediately called the police. We described the stolen bag and they started to look for the thief. After two hours they found him. They arrested him and gave the bag back to my friend.

On the third of May we had a meeting at school, after that we went to the train station and went by train to Břeclav. Then we changed the train to Vienna. From the train station we went to the airport because we had to fly to Spain. But at the airport they started to check our temperature because of the Covid 19. I had a cold because I went skiing three days ago and I had a temperature 38 degrees. They didn't agree I can fly to Spain and sent me back home.

On Tuesday we went for a walk around Olot. We went with our group of students and some older girls and boys. At first we went to school to have the second breakfast and then to the city center. There was a lot of fun there in particular when my friend stepped on the shit. Everyone laughed her and she was quite sad. We went to the school cinema to watch Lion King. In the afternoon we spent the time at the restaurant. We tested a shark. It was delicious.

This happened at the beginning of our trip to Spain. We had a meeting at the station at 7 o'clock. The one of most important things which we had to had was passport or identity card. Our train arrival was at 7:15. All students who went to Spain were there. It was 7:08 and Anna remembered she didn't have her identity card. She looked for it, but she didn't had it. Luckily, her mom was there and she rode home for the card. The train was there, but mom wasn't. Teachers said to conductor to wait. Anna's mom came back at 7:22 but she didn't had a card. Train still waited for us. Anna scared, but when she looked into the her wallet, she find out her identity card... She apologized and said goodbye to her mom. We got on the train and Anna put

important things like cards and money into her bag, so she could find them, when she needed them.

True article

We started our trip at four o'clock. At first we went by train. We arrived to Vienna at about seven o'clock. Then we flew by plane to Barcelona. The flight was exhausting. Then we continued by bus from Barcelona to Olot. It took two hours. The host families waited for us in front of the school and they took us to their houses. And the nice week started...

Our stay in a beautiful town in Catalonia Olot started with a ceremony at school. Teachers and pupils showed us their habits, they danced and sang Catalan songs. Then we started to work on project activities with journalist at the Culture centre. We really enjoyed the lunch at the school canteen after the hard work. It was delicious fish with vegetables and potatoes. After lunch we went for a tour around the school. It was really interesting to see how different their school is from our school. In the afternoon we spent the time together with some girls in our neighbour. We talked about the life in our countries. I love Spain...

On Wednesday, we were in Barcelona. It's a beautiful town. We had a lot of free time. Once, we had free time near the shops. We had about 2 hours. So we were in McDonald and in some shops. We had last 10 minutes, so we decided to go. We were on the second floor in H&M. We went down by escalators. Sylvia had a new phone in her pocket. She started to run and her phone fell down... She stepped on the phone. A lot of people asked her if everything is ok. She looked at her phone and everything was ok. The phone worked and we ran out of the shop. We saw two similar buildings... Klara said the bank is the building on the right, so we ran there. When we came near, we found out this building wasn't this bank... so we ran to the other side. Finally we came to the bank and we met with our teachers. It was ok and we enjoyed the rest of the trip.
