***No one has slept peacefully in the town of Olot this last night.***

Today 27<sup>th</sup> of February at 3 o'clock, a neighbour in the area surrounding Olot has alerted the police when he saw fire coming from his window.

When he went outside to see what was going on, he saw the biggest creature in front of his house, a dragon. Two minutes later the police and firefighters arrived. In the end they managed to put out the fire and put the dragon inside the sports hall.

At the moment, scientists are carrying out tests to know more about the animal: its origin, its family...
