Hello,

I am Marine, I'm 13 and I'm going to the school of the Immaculée in Damville. I'm in the same class as Océane. I love playing the piano. I love animals and later I'd like to become a veterinary..I really like reading as well.

I' m Océane, I' m 14 and I'm also going to the school of the Immaculée in Damville. I also like reading. I like animals. When I have some time, I also go out with my friends.

Our main problems are bread waste at our school canteen, chewing-gums spread everywhere and plenty of garbage on the ground.

For your cigarette butt problem, we may have a solution :
You could organize a « pick and collect day ». Take a bottle and gloves and pick up all the butts you saw when you go out.

Good bye and have a nice day !

Marine and Océane
