
LTS

— Sightseeing in Hägersten -
making a website —

About the project

We are making a website about the neighbourhoods around the school:

- Liljeholmen/Trekanten
- Telefonplan
- Midsommarkransen
- Västertorp/Hägerstensåsen
- Mälarhöjden
- Aspudden

The website will be used by year 3 students at our school but could also be used by guests visiting the area, tourists and newly arrived refugees.

To do

You will:

- plan your visit and route
- visit the area
- collect information and photos about the chosen sights
- write texts about the sights
- collate this data
- input on the website

Important! We need to make our material and cannot use photos or texts directly from the internet!

Places of interest include:

- places to eat/drink
- places to swim/do sports
- places to play and recreate
- places to enjoy art/culture

Your data must include:

- name of the place
- how to get there
- if there is a fee/cost
- who it is for
- why this is an interesting place
- personal reflections/reviews
- photos

Groups and neighbourhoods
