

# Making videos

—

about Stockholm and cultural heritage sites

Things to think  
about when  
making videos

# Basics

## Composition

- Camera horizontally
  - Showing the surroundings
  - Showing details
  - Rather record too much material than too little
  - **Use one phone to record everything**
-

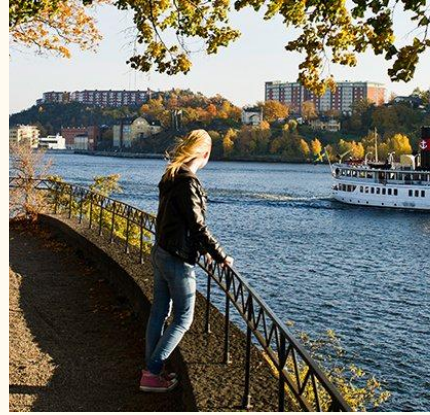

# Pros/Cons

World cultural heritage sites

- How can we show or explain the benefits of this place being a cultural heritage site?
  - How can we explain or illustrate any downsides of the same place being a cultural heritage site?
-

# People

1. All in the group should participate, in front and behind the camera.
2. Speak freely with some help from flash cards
3. Remember to stand close to the camera when speaking, especially in big noisy places.

# Adobe Premiere Rush

**Use one phone to record everything**

Download the app to one phone
