## SUMMER TASK: LET'S CREATE A SHORT FILM

In May 2022, we'll host the last project meeting in Vallbona d'Anoia. One of the activities we'll do during the meeting is a short film together with the visiting Erasmus students.

We want you to become a filmmaker this summer and you create a story that will allow us to link several scenarios in Vallbona, Igualada and Barcelona and create this short film together.

We have prepared a skeleton for you with minimal elements of time, location and characters that the story will have, the rest of the events, as well as the dialogues, will have to be created by you. It will be an individual task although in October we will work on all the proposals together to obtain a final product

**1 Read the table very carefully with all the minimal elements of the short film**

**2. Write the story in a word document while creating the different scenes and sub-scenes together with the dialogues, using the attached table as a starting point.**
