

Guidelines for teachers

The Cambridge English Placement Test assesses a student's language ability and gives a score which shows their English level. ADC College uses this information to place students in appropriate work placements and study groups.

Please note that if this level is not accurate, the student will not benefit from their work experience placement and will be rejected by their employer on arrival. It is, therefore, **very important** that you follow these guidelines.

Administering CEPT tests

Please note that CEPT tests should be administered in **strict test conditions**. That means a responsible adult should check the following:

- that the right person is taking the test.
- that they are not getting help from anyone else.

Candidates do not need to take the test at the same time as others. They can start and finish at different times provided they do not disturb other test takers.

There is no fixed time limit for the test. Most students take around 30 minutes on the test, but it can vary from 20-40 minutes.

Before the test

- 1. Before you run the test you should ensure that the candidate PCs meet the technical requirements. You should also check that you have ordered and received enough candidate Logins and Passwords for the number of candidates. It may be useful to have a spare PC and headphones.
- 2. The PCs should be arranged so that candidates cannot see another candidate's screen.
- 3. Before the candidates enter the room, load the test page in Internet Explorer on their PCs: <u>www.metritests.com/metrica</u>.
- 4. Check that the sound has not been muted on each PC.
- 5. Explain that candidates must not talk and must not use any reference material, such as dictionaries and text books, during the test.
- 6. Explain that candidate must move through the test at a reasonable speed as they must answer a minimum number of questions in both the reading and listening sections to get a score.
- 7. Students enter their login details: User ID, Password and Institution ID. They can then start the test.
- 8. If a candidate cannot hear anything when the test should be producing sound, check the volume control on the candidate's PC.

During the test

Ensure that candidates do not talk to one another and do not attempt to consult reference material. You should be able to move freely around the room but be careful not to disturb candidates.

After the test

As this is an adaptive test, candidates will finish at different times – ensure that those who finish early leave the room without disturbing the remaining students.

Technical requirements

These are the minimum technical requirements that each computer will need in order to run CEPT correctly:

Minimum Windows specifications.

Processor Pentium III 800 MHz

RAM 512 MB

Free hard drive space 4 GB

Screen resolution 1280 x 1024

Operating system Windows XP, Vista, 7

Internet connection 1 Mbps

Internet Explorer version 8 (or later)

Adobe Acrobat® version 7 (or later)

Adobe Flash Player® version 10.1 (or later)

Other Sound card and headphones (or headset for Speaking test)

Please note that CEPT can also be taken on Apple Macs or Linux computers with similar minimum specifications. iOS (iPad or iPhone) or Android devices are not currently supported.

The hardware requirements are not very high for Metrica tests; it doesn't take up a lot of memory or diskspace. However, all computers will need a sound card (or built-in sound).

You will need a reliable set of headphones. You should check that these work before candidates start the test.

Most importantly, you will need to have a reliable network connection with sufficient bandwidth to enable all users to access the test content at the same time.

2. Taking the test

You will then enter the test system. The first screen is to help you check the sound on your PC. Tell the supervisor if you have any problems with the sound.

The next screen gives you some instructions on completing the test:

Cambridge English Placement Test

This is an adaptive test; as you work through the test the computer checks your answers then chooses suitable tasks to match your level of knowledge. Try to answer as many questions as you can, because you may not get a report if you do not answer enough questions.

There are two parts to the test: Listening and Reading.

In the Listening part of the test, there will be a pause before the audio starts so you can read the question(s). You will hear each recording twice.

Click the Next button in the bottom-right corner of the screen to move through the test.

The progress indicator at the bottom of the screen will show you how much of the test you have completed.

Now click on the right arrow to continue.

Note that the button to click to move on is in the bottom right corner of the screen.

Then you will see a screen with a form to complete. Add your own information for each box. Please enter your school/college name in 'Organisation' and please enter **nothing** in 'Department', 'National ID number' and 'Candidate number'
